Increasing Resources For General University

General University will focus new revenue on the following areas:

- Restore & Sustain Academic Programs and Lost Faculty Positions
 \$10.5 million
- Restore Student Services\$2.0 million
- Student Recruitment and Retention Initiatives \$1.5 million
- Faculty/Staff Retention and Recruitment \$3.0 million

Importance Of Increasing Resources For General University

Increased resources address the following challenges:

- Faculty retention and recruitment
 - OSU faculty salaries are consistently below peer average. This
 results in other institutions recruiting our best faculty.
 - Restoring lost faculty positions will help lower OSU's student/faculty ratio to be more in line with other Big XII institutions.
- Sustain the continued growth in undergraduate enrollment and ensure services to improve student retention.
- Maintain the quality of academic programs and improve national reputation and rankings. OSU's lack of funds is often reflected in rankings involving resources.
 - U.S. New Best College Ranking financial resource category is OSU's lowest ranking.
 - Wall Street Journal / Times Higher Education College Ranking resources category is also OSU's weakest category.
