## Independent Auditor's Report

Board of Regents for the  
Oklahoma Agricultural and Mechanical Colleges  
Oklahoma State University  
Oklahoma City, Oklahoma

### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of Oklahoma State University (the "University") as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise Oklahoma State University's basic financial statements, as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of Oklahoma State University Foundation (OSU Foundation), a discretely presented component unit which represents 87 percent and 100 percent of the assets, 87 percent and 100 percent of the net position/net assets and 52 percent and 100 percent of the revenues, respectively, of the aggregate discretely presented component units for the years then ended. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion insofar as it relates to the amounts included for the OSU Foundation, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of OSU Foundation and NCAST Foundation, the aggregate discretely presented component units, were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, based on our audits and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of Oklahoma State University as of June 30, 2020 and 2019, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The Revenue Bond Systems Outstanding – Schedule of Revenues, Expenditures, Changes in Fund Balance, Combining Schedules by Campus, and the schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2020, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

### Years Ended June 30, 2020 and 2019

#### ***Overview of Financial Statements and Financial Analysis***

Oklahoma State University proudly presents its financial statements for fiscal years 2020 and 2019, with comparative data presented for fiscal year 2018. The emphasis of discussions concerning these statements will be for the current year. There are three financial statements presented: the Statements of Net Position; the Statements of Revenues, Expenses, and Changes in Net Position; and the Statements of Cash Flows. All dollar amounts in this discussion are presented in thousands of dollars. This discussion and analysis of the University's financial statements provides an overview of its financial activities for the year.

#### ***Statements of Net Position***

The Statements of Net Position present the assets (current and noncurrent), deferred outflows of resources, liabilities (current and noncurrent), deferred inflows of resources, and net position (assets plus deferred outflows minus liabilities minus deferred inflows) as of the end of the fiscal year. The purpose of the Statements of Net Position is to present to the readers of the financial statements a fiscal snapshot of Oklahoma State University. The difference between current and noncurrent assets is discussed in the footnotes to the financial statements.

From the data presented, readers of the Statements of Net Position are able to determine the assets available to continue the operations of the institution. They are also able to determine cost of unamortized debt, and determine how much the institution owes vendors, investors, and lending institutions.

Net position is divided into three major categories. The first category, net investment in capital assets, provides the institution's equity in property, plant, and equipment owned by the institution. The next category, restricted is divided into two categories, nonexpendable and expendable. The nonexpendable restricted resources are only available for investment purposes. Expendable restricted resources are available for expenditure by the institution, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted. Unrestricted resources are available to the institution for any lawful purpose of the institution. The following chart is a summary of the Statements of Net Position over the last three fiscal years:

	<b>2020</b>	<b>2019</b>	<b>2018</b>
	<b>(In Thousands)</b>		
<b>Assets</b>			
Current assets	\$ 364,267	\$ 378,429	\$ 327,898
Capital assets, net of accumulated depreciation	1,977,836	1,857,098	1,791,664
Other assets	<u>143,807</u>	<u>127,362</u>	<u>151,452</u>
Total assets	2,485,910	2,362,889	2,271,014
<b>Deferred Outflows of Resources</b>			
	<u>112,527</u>	<u>104,084</u>	<u>105,639</u>
<b>Total Assets and Deferred Outflows of Resources</b>			
	<u>2,598,437</u>	<u>2,466,973</u>	<u>2,376,653</u>
<b>Liabilities</b>			
Current liabilities	135,357	138,826	134,923
Noncurrent liabilities	<u>1,312,029</u>	<u>1,290,098</u>	<u>1,301,997</u>
Total liabilities	<u>1,447,386</u>	<u>1,428,924</u>	<u>1,436,920</u>
<b>Deferred Inflows of Resources</b>			
	<u>53,948</u>	<u>56,786</u>	<u>54,433</u>
<b>Net Position</b>			
Net investment in capital assets	1,100,012	1,005,640	966,224
Restricted - expendable	115,984	65,817	53,120
Restricted - unexpendable	589	665	558
Unrestricted	<u>(119,482)</u>	<u>(90,859)</u>	<u>(134,602)</u>
<b>Total Net Position</b>	<u>\$ 1,097,103</u>	<u>\$ 981,263</u>	<u>\$ 885,300</u>

In fiscal year 2020, total assets of the institution increased by \$123,021 or 5.21 percent over fiscal year 2019. A review of the Statements of Net Position will reveal that there are many offsetting variances, but the increase was primarily due to increases in capital assets, net of depreciation of \$120,738, accounts receivable, net of \$5,667, and investments of \$5,058. These were offset by a decrease in receivables from state agencies of \$5,861.

In fiscal year 2019, total assets of the institution increased by \$91,875 or 4.05 percent over fiscal year 2018. A review of the Statements of Net Position will reveal that there are many offsetting variances, but the increase was primarily due to increases in capital assets, net of depreciation of \$65,434, cash and cash equivalents of \$40,345, and investments of \$7,607. These were offset by decreases in receivables from state agencies of \$10,610 and accounts receivable, net of \$9,041.

In fiscal year 2020, capital assets, net of accumulated depreciation increased \$120,738 or 6.50 percent. This was due primarily to capital grants and gifts for the O'Brate Baseball Stadium and the Neal Patterson Soccer Stadium.

In fiscal year 2019, capital assets, net of accumulated depreciation increased \$65,434 or 3.65 percent. This was due primarily to additions for the College of Engineering, Architecture and Technology ENDEAVOR undergraduate laboratory, the Animal Resources multi-species research facility, and the College of Human Sciences renovation on the Stillwater campus, along with other renovation projects across all campuses.

In fiscal year 2020, deferred outflows of resources increased by \$8,443 over fiscal year 2019. This was due primarily to an increase to deferred costs on debt refunding of \$14,878, but offset by a decrease in the deferred costs on pension programs of \$7,036. In fiscal year 2019, deferred outflows of resources decreased by \$1,555 over fiscal year 2018. This was due primarily to a decrease to deferred costs on pension programs of \$7,687, but offset by an increase in the deferred costs on other postemployment benefits of \$6,158.

In fiscal year 2020, total liabilities for the year increased by \$18,462 or 1.29 percent over fiscal year 2019. The increase was primarily due to increases in the pension liability of \$7,378 and unearned revenue of \$4,321. These were offset by a decrease in accounts payable of \$7,454. There was also an increase in revenue bonds and lease obligations of \$18,594. This is primarily due to an increase in revenue bonds payable of \$32,440 and revenue bonds premium payable of \$29,071, offset by a decrease in the ODFA master lease program of \$38,934 due to refunding in fiscal year 2020.

In fiscal year 2019, total liabilities for the year decreased by \$7,996 or 0.56 percent over fiscal year 2018. The decrease was primarily due to decreases in the pension liability of \$14,509 and the federal loan program contribution payable of \$5,183. These were offset by increases in other postemployment benefits of \$6,797 and accrued compensated absences of \$3,136. There was also a decrease in revenue bonds and lease obligations of \$1,161. This is primarily due to a decrease in the ODFA master lease program of \$69,544, offset by an increase in revenue bonds payable of \$62,955 and revenue bonds premium payable of \$8,404 due to refunding in fiscal year 2019.

In fiscal year 2020, deferred inflows of resources decreased by \$2,838 over fiscal year 2019. This was due to decreases in deferred inflows for pension liabilities, other postemployment benefits, and debt refunding. In fiscal year 2019, deferred inflows of resources increased by \$2,353 over fiscal year 2018. This was due to an increase in deferred inflows for pension liabilities and other postemployment benefits.

In fiscal year 2020, the combination of the increase in total assets, plus the increase in deferred outflows of resources, less the increase in total liabilities plus the decrease in deferred inflows of resources nets to an increase in total net position of \$115,840 or 11.81 percent.

In fiscal year 2019, the combination of the increase in total assets, less the decrease in deferred outflows of resources, plus the decrease in total liabilities less the increase in deferred inflows of resources nets to an increase in total net position of \$95,963 or 10.84 percent.

### ***Bonds and Capital Lease Obligations***

In fiscal year 2020, bonds were issued in the principal amount of \$271,755 and a premium of \$35,168. These bond proceeds were used to refund certain outstanding bonds, make capital improvements, and pay the purchase price under certain capital lease obligations.

In fiscal year 2018, bonds were issued in the principal amount of \$75,545 with a premium of \$9,051. These bond proceeds were used to make certain capital improvements, and pay the purchase price under certain capital lease agreements.

### ***Statements of Revenues, Expenses, and Changes in Net Position***

While the fiscal years 2019 – 2020 comparisons are important indicators of activity during the year under audit, it is important to look at some of the operating and nonoperating categories over time. One of the important measures of an institution's fiscal stability is how operating revenues compare to operating expenses. Public institutions will normally not have an excess of operating revenues over operating expenses because state appropriations and federal and some state student grants are considered nonoperating revenues under generally accepted accounting principles in the United States of America.

The following table summarizes the revenues, expenses, and changes in net position for Oklahoma State University over the last three years:

	<b>2020</b>	<b>2019</b>	<b>2018</b>
	<b>(In Thousands)</b>		
Operating revenues	\$ 842,324	\$ 904,057	\$ 802,851
Operating expenses	<u>1,171,199</u>	<u>1,134,314</u>	<u>1,112,127</u>
Operating loss	(328,875)	(230,257)	(309,276)
Nonoperating net revenues	<u>309,099</u>	<u>279,734</u>	<u>274,431</u>
Income (loss) before other revenues, expenses, gains, and losses	(19,776)	49,477	(34,845)
Other revenues, expenses, gains, and losses	<u>135,616</u>	<u>46,486</u>	<u>43,805</u>
Net increase in net position	<u><u>\$ 115,840</u></u>	<u><u>\$ 95,963</u></u>	<u><u>\$ 8,960</u></u>

Operating revenues of \$842,324 in fiscal year 2020 reflect a decrease of \$61,733 or 6.83 percent when compared to fiscal year 2019. The decrease came primarily from decreases in auxiliary enterprises of \$75,268 offset by increases in grants and contracts and federal appropriations of \$2,937.

Operating revenues of \$904,057 in fiscal year 2019 reflect an increase of \$101,206 or 12.61 percent when compared to fiscal year 2018. The increase came primarily from increases in auxiliary enterprises of \$59,852, tuition and fees, net of scholarship allowances of \$26,236, and grants and contracts and federal appropriations of \$13,102.

The following table summarizes the operating revenues of Oklahoma State University for the last three years:

	<b>2020</b>	<b>2019</b>	<b>2018</b>
	<b>(In Thousands)</b>		
Tuition and fees, net of scholarship allowances	\$ 303,232	\$ 297,206	\$ 270,970
Grants and contracts and federal appropriations	160,943	158,006	144,904
Sales and services of educational departments	65,943	53,389	59,418
Auxiliary enterprises charges	292,184	367,452	307,600
Interest earned on loans to students	236	255	580
Other operating revenues	<u>19,786</u>	<u>27,749</u>	<u>19,379</u>
<b>Total Operating Revenues</b>	<u><u>\$ 842,324</u></u>	<u><u>\$ 904,057</u></u>	<u><u>\$ 802,851</u></u>

Operating expenses of \$1,171,199 in fiscal year 2020 reflect an increase of \$36,885 or 3.25 percent when compared to fiscal year 2019. The increase was primarily due to the increase in compensation and employee benefits of \$25,190 and scholarships and fellowships of \$12,659.

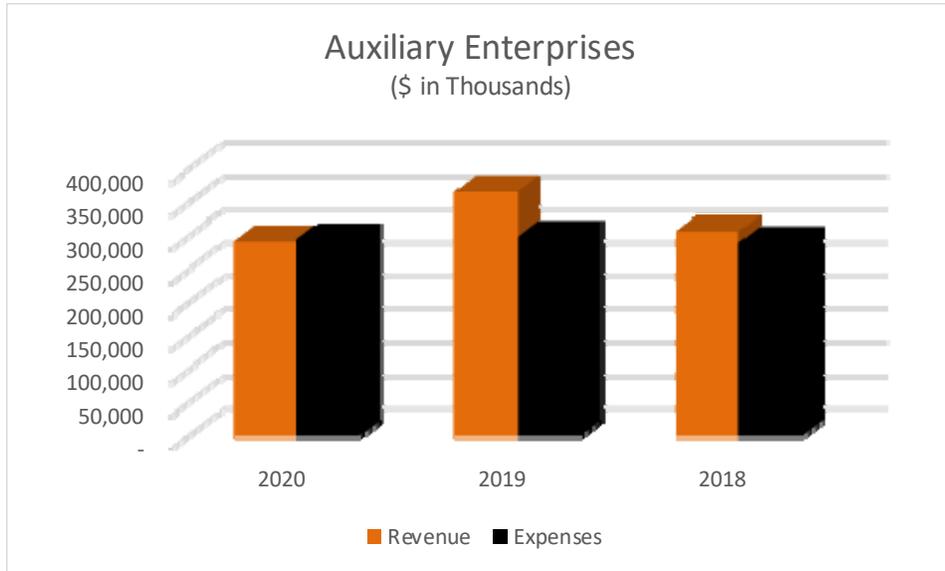

Operating expenses of \$1,134,314 in fiscal year 2019 reflect an increase of \$22,187 or 2.00 percent when compared to fiscal year 2018. The increase was primarily due to the increase in compensation and employee benefits of \$29,005, contractual services of \$6,260, and depreciation expense of \$4,690. These were offset by a decrease in other operating expenses of \$20,785.

	<b>2020</b>	<b>2019</b>	<b>2018</b>
	<b>(In Thousands)</b>		
Compensation and employee benefits	\$ 641,568	\$ 616,378	\$ 587,373
Contractual services	222,729	226,383	220,123
Supplies and materials	46,566	51,662	48,752
Utilities	33,283	33,261	34,283
Communication	4,700	5,270	5,353
Other operating expenses	71,798	69,583	90,368
Scholarships and fellowships	63,772	51,113	49,901
Depreciation expense	86,783	80,664	75,974
<b>Total Operating Expenses</b>	<b>\$ 1,171,199</b>	<b>\$ 1,134,314</b>	<b>\$ 1,112,127</b>

To alleviate the gap between operating revenues and operating expenses, tuition and fees, grants and contracts, and auxiliary enterprise revenues must increase in amounts greater than increases in operating expenses. Of particular interest is the relationship of state appropriations when compared to tuition and fees over the past three years. State appropriations and tuition and fees are essential components of the revenue projections of the University. While state appropriations have increased 4.24 percent in that time period, tuition and fees revenues have increased 11.91 percent. It should be noted that scholarship discount and allowance increased by \$1,944 (1.65 percent) during that same time period.

Other important contributors to revenues are both operating and nonoperating grants and contracts. Over the past three fiscal years total grants and contracts have increased by \$35,363 or 17.44 percent.

Auxiliary Enterprises (Residential Life, Student Union, Bookstore, Health, Physical Education and Recreation, Athletics, University Health Services, Fire Protection Publications, etc.) have contributed positively to the Operating Revenues over time. Since fiscal year 2018, auxiliaries have experienced a revenue decrease of \$15,416 or 5.01 percent and expenses have increased \$5,107 or 1.76 percent. For fiscal year 2020, auxiliaries have shown a net operating loss of \$3,608.

Nonoperating net revenues of \$309,099 in fiscal year 2020 increased \$29,365 or 10.50 percent when compared to fiscal year 2019. Nonoperating net revenues of \$279,734 in fiscal year 2019 increased \$5,303 or 1.93 percent when compared to fiscal year 2018. The following table summarizes the nonoperating revenues and expenses for Oklahoma State University for the last three years:

	<b>2020</b>	<b>2019</b>	<b>2018</b>
	<b>(In Thousands)</b>		
State appropriations	\$ 199,280	\$ 192,082	\$ 191,175
On-behalf payments for OTRS	17,530	21,698	20,906
Federal and state grants and contracts	77,159	57,470	57,835
Gifts	40,115	39,145	38,433
Investment income	7,078	6,612	1,425
Interest expense	(32,063)	(37,273)	(35,343)
<b>Net Nonoperating Revenues</b>	<b>\$ 309,099</b>	<b>\$ 279,734</b>	<b>\$ 274,431</b>

Other revenues, expenses, gains, and losses of \$135,616 in fiscal year 2020 increased \$89,130 or 191.74 percent when compared to fiscal year 2019. Other revenues, expenses, gains, and losses of \$46,486 in fiscal year 2019 increased \$2,681 or 6.12 percent when compared to fiscal year 2018.

The following table summarizes the other revenues, expenses, gains, and losses of Oklahoma State University for the last three years:

	<u>2020</u>	<u>2019</u>	<u>2018</u>
	(In Thousands)		
Capital from grants, gifts, and affiliates	\$ 103,167	\$ 26,923	\$ 25,581
State appropriations restricted for capital	3,271	844	1,441
On-behalf payments for OCIA capital leases	2,695	4,726	9,157
State school land funds	7,786	7,913	8,960
Additions to permanent endowments	4	1	1
Loss on disposal of capital assets	(3,831)	(2,806)	(8,843)
Other additions, net	<u>22,524</u>	<u>8,885</u>	<u>7,508</u>
<b>Total Other Revenues, Expenses, Gains, and Losses</b>	<u><u>\$ 135,616</u></u>	<u><u>\$ 46,486</u></u>	<u><u>\$ 43,805</u></u>

### **Statements of Cash Flows**

The final statement presented by Oklahoma State University is the Statement of Cash Flows. The Statements of Cash Flows present detailed information about the cash activity of the institution during the year. The statement is divided into five sections.

The first section deals with operating cash flows and shows the net cash used by the operating activities of the institution. The second section reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for nonoperating, noninvesting, and noncapital financing purposes. The third section reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fourth section deals with cash flows from capital and related financing activities. This section deals with the cash used for the acquisition and construction of capital and related items. The fifth section reconciles the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

	<u>2020</u>	<u>2019</u>	<u>2018</u>
	(In Thousands)		
Cash provided by (used in)			
Operating activities	\$ (215,342)	\$ (117,603)	\$ (215,480)
Noncapital financing activities	313,706	287,995	286,072
Investing activities	2,190	(985)	14,300
Capital and related financing activities	<u>(101,410)</u>	<u>(129,062)</u>	<u>(83,229)</u>
Net change in cash and cash equivalents	(856)	40,345	1,663
Cash and cash equivalents, beginning of year	<u>264,361</u>	<u>224,016</u>	<u>222,353</u>
Cash and cash equivalents, end of year	<u><u>\$ 263,505</u></u>	<u><u>\$ 264,361</u></u>	<u><u>\$ 224,016</u></u>

In fiscal year 2020, the cash and cash equivalents, end of year, decreased by \$856 or 0.32 percent. The difference in net change in cash and cash equivalents from fiscal year 2019 to fiscal year 2020 was a decrease of \$41,201. This net decrease was generated by a decrease in operating activities of \$97,739. This was offset by increases in capital and related financing activities of \$27,652, noncapital financing activities of \$25,711, and investing activities of \$3,175.

In fiscal year 2019, the cash and cash equivalents, end of year, increased by \$40,345 or 18.01 percent. The difference in net change in cash and cash equivalents from fiscal year 2018 to fiscal year 2019 was an increase of \$38,682. This net increase was generated by an increase in operating activities of \$97,877 and noncapital financing activities of \$1,923. This was offset by decreases in capital and related financing activities of \$45,833 and investing activities of \$15,285.

### ***Determining Whether Certain Organizations Are Component Units***

The Governmental Accounting Standards Board (GASB) published GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, which became effective in fiscal year 2004 and requires universities to include in their financial statements component unit financial information. Oklahoma State University has determined that the Oklahoma State University Foundation and the National Center for Addiction and Studies Treatment Foundation meet the necessary criteria for inclusion. The inclusion of these statements should not be interpreted that Oklahoma State University has access to the resources contained therein.

The financial statements include the accounts of the Oklahoma State University Research Foundation, Inc. (OSURF), collectively referred to as the “University.” OSURF was formed in 1967 as a nonprofit corporation to engage in research, extension, and academic contractual arrangements for the benefit and advancement of the General University. OSURF receives and administers funds from federal and state organizations and from private sources for the purpose of carrying out the educational and research programs of the General University. OSURF is governed by a Board of Directors comprised primarily of management of the General University. In addition, General University employees and facilities are used for virtually all activities of OSURF. Accordingly, OSURF has been reported as a blended component unit in the financial statements.

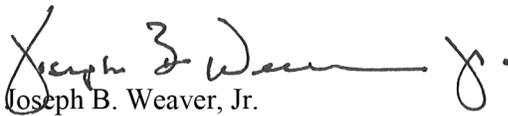

### ***Economic Outlook***

The State of Oklahoma’s overall budget decrease for fiscal year 2021 was 2.6 percent. The Legislature decreased most agencies budget and the total Education budget was decreased by 2.9 percent. Oklahoma State Regents for Higher Education (OSRHE) decrease was 3.95 percent which was passed down to the institutions that report to the OSRHE. Institutions shared a 3.95 percent cut as well. In addition, institutions that participate with concurrent enrollment were reimbursed at only 95.1 percent of total eligible waivers given in fiscal year 2020. The allocation for National Guard Waiver reimbursements was also reduced by 3.95 percent. Funding for OK Promise in the amount of \$70 million will also be received in fiscal year 2021. The University continues to look for strategies to increase enrollment, increase private dollars, and explore cost savings and avoidance ideas.

The University continues to provide initiatives for students to Finish in Four. The first initiative was moving to block tuition in Fall 2014. The University continues to see the positive results from this initiative with the most current four-year graduation rate at 47 percent, the highest ever for the University. Prior to block tuition, the four-year graduation rate hovered around 34.5 percent. The most recent retention rate is 84.9 percent, which is the highest rate in Oklahoma State University history. The Fall 2019 freshman class was 4,144. The University has not increased tuition and mandatory fees since Fall 2018 for undergraduate/graduate resident and nonresident students. Oklahoma State University still remains among one of the most affordable Big 12 Schools.

“The positive revenue performance early in this fiscal year was driven by a combination of delayed income tax submissions and deferred first quarter payments received for 2020,” said OMES Director Steven Harpe. “While our state collections are off to a positive start, with gas production collections continuing to encounter headwinds combined with the historic unemployment numbers our state has seen, we must prepare to take a cautious approach in the new fiscal year.”

The University, with its strong leadership, continues to develop plans to reduce costs while protecting the educational experience of our students.

Joseph B. Weaver, Jr.

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 1: Nature of Operations and Summary of Significant Accounting Policies

#### *Nature of Operations*

Oklahoma State University (the “University”) is a modern comprehensive land grant university that serves the state, national, and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge and by disseminating knowledge to the people of Oklahoma and throughout the world.

#### *Reporting Entity*

The financial reporting entity, as defined by Governmental Accounting Standards Board (GASB) Statements No. 14, 61, and 80, consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. Accordingly, the financial statements include the accounts of all agencies of Oklahoma State University (the “General University”), as the primary government, and the accounts of the Oklahoma State University Research Foundation, Inc. (OSURF, formerly known as the Center for Innovation and Economic Development, Inc.), collectively referred to as the “University.” Further, the financial statements of all component units of the University meeting the criteria established by GASB Statements No. 39 and No. 80 have been discretely presented.

The General University includes Oklahoma State University - Stillwater; Oklahoma State University Institute of Technology - Okmulgee; Oklahoma State University - Oklahoma City; the Center for Veterinary Health Sciences; the Agricultural Experiment Station; the Agricultural Extension Division; the Center for Health Sciences - Tulsa and Oklahoma State University - Tulsa. The General University is governed by the Board of Regents for the Oklahoma Agricultural and Mechanical Colleges (Board of Regents). The State of Oklahoma allocates and allots funds to each agency separately and requires that the funds be maintained accordingly. Because of this requirement, separate accounts are maintained for each agency.

OSURF was formed in 1967 as a nonprofit corporation to engage in research, extension, and academic contractual arrangements for the benefit and advancement of the General University. OSURF receives and administers funds from federal and state organizations and from private sources for the purpose of carrying out the educational and research programs of the General University. OSURF is governed by a Board of Directors comprised primarily of management of the General University. In addition, General University employees and facilities are used for virtually all activities of OSURF. Accordingly, OSURF has been reported as a blended component unit in the financial statements.

# Oklahoma State University

## Notes to Financial Statements

### June 30, 2020 and 2019

#### (In Thousands)

In preparing the financial statements, all significant transactions and balances between agencies and between the General University and OSURF are eliminated.

The University is a member of the Oklahoma State System of Higher Education, a component unit of the State of Oklahoma, and is included in the comprehensive annual financial report of the State of Oklahoma as part of the Higher Education component unit.

*Financial Statement Presentation:* As a member of the Oklahoma State System of Higher Education, the University presents its financial statements in accordance with the requirements of GASB Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments* and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. The financial statement presentation required by GASB Statements No. 34 and 35 provides a comprehensive, entity-wide perspective of the University's assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, expenses, changes in net position, and cash flows.

*Component Units:* Oklahoma State University Foundation (OSU Foundation), is a private nonprofit organization that reports under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to OSU Foundation's financial information, which has been discretely presented. The National Center for Addiction Studies and Treatment Foundation (NCAST) is a nonprofit organization that reports under GASB standards and operates under a December 31 fiscal year-end. NCAST has also been discretely presented.

*Basis of Accounting:* For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

### **Cash Equivalents**

The University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State Treasurer's Cash Management Program are considered cash equivalents.

### **Investments**

The University accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net position.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### ***Accounts Receivable***

Accounts receivable consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State. Accounts receivable also include amounts due from the federal government, state and local governments or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts. The University determines its allowance by considering a number of factors, including the length of time accounts receivable are past due, the University's previous loss history, and the condition of the general economy and the industry as a whole. The University writes off specific accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts.

### ***Inventories***

Inventories are carried at the lower of cost or market on either the first-in, first-out (FIFO) basis or the average cost basis.

### ***Noncurrent Cash and Investments***

Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statements of net position.

### ***Capital Assets***

Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation in the case of gifts. Livestock for educational purposes is recorded at estimated fair value. For equipment, the University's capitalization policy includes all items with a unit cost of \$5 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Internally generated software has a capitalization threshold of \$1,000.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 40 to 50 years for buildings, 20 to 25 years for infrastructure and land improvements, 10 years for library books, 5 to 7 years for equipment, 3 years for purchased software, and 5 years for internally generated software.

Costs incurred during construction of long-lived assets are recorded as construction in progress and are not depreciated until placed in service. The University capitalized interest as a component of capital assets constructed for its own use, until July 1, 2018, when GASB Statement No. 89 was early adopted and the capitalization of interest ceased.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### ***Deferred Outflows of Resources***

The University reports increases in net position generated by its defined benefit pension plan or other postemployment benefits that relate to future periods and costs of restructuring debt as deferred outflows of resources in a separate section of its statements of net position.

### ***Unearned Revenues***

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

### ***Compensated Absences***

The liability and expense incurred for employee vacation pay are recorded as accrued compensated absences in the statements of net position, and as a component of compensation and employee benefit expense in the statements of revenues, expenses, and changes in net position.

Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at statement of net position date plus an additional amount for compensation-related payments such as Social Security and Medicare taxes computed using rates in effect at that date. The estimated compensated absences liability expected to be paid more than one year after the statements of net position date is included in other long-term liabilities.

### ***Noncurrent Liabilities***

Noncurrent liabilities include (1) principal amounts of revenue bonds payable and capital lease obligations; (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

### ***Pensions and Benefit Plans***

The University participates in a cost-sharing multiple-employer defined benefit pension plan. The fiduciary net position of the Teacher Retirement System of Oklahoma (OTRS) has been determined on the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense and information about assets, liabilities and additions to/deductions from OTRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

The University has a single-employer defined benefit other postemployment benefit (OPEB) plan, providing health insurance and life insurance to retirees (the “OPEB Plans”). For purposes of measuring the total OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB and OPEB expense have been determined on the same basis as they are reported by the OPEB Plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

***Deferred Inflows of Resources***

The University reports decreases in net position generated by its defined benefit pension plan or other postemployment benefits that relate to future periods and savings of restructuring debt as deferred inflows of resources in a separate section of its statements of net position.

***Net Position***

The University’s net position is classified as follows:

*Net investment in capital assets:* This represents the University’s total investment in capital assets, net of accumulated depreciation, and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

*Restricted net position - expendable:* Restricted expendable net position includes resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

*Restricted net position - nonexpendable:* Restricted nonexpendable net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

*Unrestricted net position:* Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University’s policy is to use prudent decision processes to determine which resources will be applied based on availability of funding, donor intent, and returns available from idle funds.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### **Income Taxes**

The General University, as a political subdivision of the State, is excluded from federal income taxes under Section 115(a) of the Internal Revenue Code, as amended. OSURF is an organization described in Section 501(c)(3) of the Internal Revenue Code, exempt from federal income tax under Section 501(a) of the Internal Revenue Code for activities which relate to its exempt purpose.

### **Classification of Revenues**

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

*Operating revenues:* Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) certain federal, state, and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

*Nonoperating revenues:* Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, student aid revenues, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

### **Scholarship Discounts and Allowances**

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

***New Pronouncements***

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on whether a government is controlling the assets of the fiduciary activity and the beneficiaries with whom a fiduciary relationship exists. This Statement is now effective for periods beginning after December 15, 2019. Earlier application is encouraged.

In June 2017, GASB issued Statement No. 87, *Leases*. This Statement requires recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement is now effective for periods beginning after June 15, 2021. Earlier application is encouraged.

In August 2018, GASB issued Statement No. 90, *Majority Equity Interests*. This Statement improves consistency and comparability of reporting a government's majority equity interest in a legally separate organization. It also requires that a component unit for which a government has a 100 percent equity interest account for its assets, deferred outflows or resources, liabilities, and deferred inflows of resources at acquisition value. This Statement is now effective for periods beginning after December 15, 2019. Earlier application is encouraged.

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. The Statement is now effective for periods beginning after December 15, 2021. Earlier application is encouraged.

In January 2020, GASB issued Statement No. 92, *Omnibus 2020*. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement is now effective for periods beginning after June 15, 2021. Earlier application is encouraged.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. This statement addresses accounting and financial reporting implications that result from the replacement of an interbank offered rate as a result of global reference rate reform. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All other requirements of the statement are now effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement addresses issues related to public-private and public-public partnership arrangements and provides guidance for accounting and financial reporting for availability payment arrangements. This Statement is effective for periods beginning after June 15, 2022. Earlier application is encouraged.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. This statement provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain provisions that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement defines a subscription-based information technology arrangement (SBITA), establishes that a SBITA results in a right-to-use subscription asset and a corresponding subscription liability, provides capitalization criteria for outlays other than subscription payments, and requires note disclosure regarding a SBITA. This Statement is effective for periods beginning after June 15, 2022. Earlier application is encouraged.

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. This Statement increases consistency and comparability related to the reporting of fiduciary component units, mitigates the costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit plans, and other employee benefit plans, and enhances the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code Section 457 deferred compensation plans. The requirements of this Statement that are related to the accounting and financial reporting for Section 457 plans are effective for periods beginning after June 15, 2021. All other requirements of this Statement are effective immediately. Earlier application is encouraged.

Management has not yet determined the effect, if any, of adoption of the new GASB statements for the financial statements.

## Note 2: Cash and Cash Equivalents, Other Deposits and Investments

### ***Cash and Cash Equivalents***

At June 30, 2020 and 2019, the carrying amounts of the University's deposits with the State Treasurer and other financial institutions were \$263,505 and \$264,361, respectively. These amounts consisted of deposits with the State Treasurer (\$258,454 and \$259,857), U.S. financial institutions (\$931 and \$1,150), trustees related to the University's various bond indenture agreements (\$3,946 and \$3,187), and petty cash and change funds (\$174 and \$167), respectively.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

By Oklahoma Statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. Any deposits with the State Treasurer are pooled with funds of other state agencies, and then in accordance with statutory limitations, placed in banks or invested as the State Treasurer may determine, in the State's name. The University's cash balances deposited with the State Treasurer were \$267,124 and \$262,856, respectively, at June 30, 2020 and 2019. The difference between the carrying amount and the cash balances deposited with the State Treasurer are due to deposits in transit and outstanding checks at June 30.

The University requires that balances on deposit with financial institutions be insured by the FDIC or collateralized by securities held by the cognizant Federal Reserve Bank, in the University's name. The carrying amount and related bank balances of the University's deposits was \$1 and \$181, respectively, at June 30, 2020 and 2019.

***Deposits***

At June 30, 2020 and 2019, the University held no nonnegotiable certificates of deposit.

Some deposits with the State Treasurer are placed in the State Treasurer's internal investment pool *OK INVEST*. *OK INVEST* pools the resources of all state funds and agencies and invests them in (a) U.S. treasury securities which are explicitly backed by the full faith and credit of the U.S. government; (b) U.S. agency securities which carry an implicit guarantee of the full faith and credit of the U.S. government; (c) money market mutual funds which participate in investments, either directly or indirectly, in securities issued by the U.S. Treasury and/or agency and repurchase agreements relating to such securities; and (d) investments related to tri-party repurchase agreements which are collateralized at 102 percent and, whereby, the collateral is held by a third party in the name of the State Treasurer.

Of funds on deposit with the State Treasurer, amounts invested in *OK INVEST* total \$61,196 at June 30, 2020, and \$68,737 at June 30, 2019.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

For financial reporting purposes, deposits with the State Treasurer that are invested in *OK INVEST* are classified as cash equivalents. At June 30, the distribution of deposits in *OK INVEST* is as follows:

<b>OK INVEST Portfolio</b>	<b>2020</b>		<b>2019</b>	
	<b>Cost</b>	<b>Market Value</b>	<b>Cost</b>	<b>Market Value</b>
U.S. agency securities	\$ 14,186	\$ 14,370	\$ 21,297	\$ 21,429
Certificates of deposit	903	903	1,520	1,520
Money market mutual funds	3,193	3,193	6,841	6,841
Mortgage backed agency securities	22,738	23,750	27,619	28,194
Municipal bonds	78	81	122	128
Foreign bonds	636	635	285	280
U.S. Treasury Obligations	19,462	19,949	11,053	11,198
	<u>\$ 61,196</u>	<u>\$ 62,881</u>	<u>\$ 68,737</u>	<u>\$ 69,590</u>

Agencies and funds that are considered to be part of the State's reporting entity in the State's Comprehensive Annual Financial Report are allowed to participate in *OK INVEST*. Oklahoma statutes and the State Treasurer establish the primary objectives and guidelines governing the investment of funds in *OK INVEST*. Safety, liquidity, and return on investment are the objectives which establish the framework for the day to day *OK INVEST* management with an emphasis on safety of the capital and the probable income to be derived and meeting the State and its funds and agencies' daily cash flow requirements. Guidelines in the Investment Policy address credit quality requirements, diversification percentages, and specify the types and maturities of allowable investments, and the specifics regarding these policies can be found on the State Treasurer's website at <http://www.treasurer.state.ok.us/>. The State Treasurer, at his discretion, may further limit or restrict such investments on a day to day basis. *OK INVEST* includes a substantial investment in securities with an overnight maturity as well as in U.S. government securities with a maturity of up to three years. *OK INVEST* maintains an overall weighted average maturity of less than 270 days.

Participants in *OK INVEST* maintain an interest in its underlying investments and, accordingly, may be exposed to certain risks. As stated in the State Treasurer information statement, the main risks are interest rate risk, credit/default risk, liquidity risk, and U.S. government securities risk. Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher. Credit/default risk is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. Liquidity risk is the risk that *OK INVEST* will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

U.S. government securities risk is the risk that the U.S. government will not provide financial support to U.S. government agencies, instrumentalities, or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's Investment Policy to mitigate those risks; however, any interest in *OK INVEST* is not insured or guaranteed by the State, the FDIC, or any other government agency.

### **Investments**

The University invests available resources pursuant to the A&M Board of Regents Institutional Policy for Investing Funds, the Oklahoma State Regents for Higher Education System-wide Policy for Investment of Institutional Funds, and the Investment Policy of the Oklahoma State Treasurer. The short-term investment of agency special and agency relationship funds is directed primarily toward maximizing earnings on the University's working capital while maintaining adequate liquidity to meet cash flow needs of the University. Short term allowable monies are invested through the *OK INVEST* Program administered through the Office of the State Treasurer. As an agency of the State of Oklahoma investments in this program are executed in cooperation with the Oklahoma State Treasurer's Office, which serves as the University's official depository.

The Institutional Guidelines for Investment of Funds of the University is directed toward the investment of long-term oriented funds held by the University in a Fixed Income portfolio. The long-term objective of the portfolio is to maximize the returns without exposure to undue risk. Allowable monies are invested in securities permitted by Oklahoma State Statute (Title 62 § 89.2). Whereas fluctuating rates of return are characteristic of the securities markets, the main concern is the long-term appreciation of the assets and the consistency of total return. These investments are managed and held by a third-party investment management fiduciary.

Credit Risk - investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In accordance with state statutes, the State Treasurer may only purchase and invest in (a) obligations of the United States government, its agencies and instrumentalities; (b) prime banker's acceptances; (c) investment grade obligations of state and local governments; (d) money market funds; (e) collateralized or insured certificates of deposits; (f) negotiable certificates of deposits; (g) prime commercial paper; and (h) repurchase agreements. State law limits investments in obligations of state and local governments to the highest rating from at least one nationally recognized rating agency acceptable to the State Treasurer. Additionally, it is the University's policy to limit its investments in municipal and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations. As of June 30, 2020 and 2019, the University did not directly hold investments in municipal or corporate bonds.

Interest Rate Risk - the risk that changes in interest rates will adversely affect the fair value of an investment. Investments that are held for longer periods of time are subject to increased risk of adverse interest changes. Neither the University nor state statutes limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates; however, the State Treasurer Investment Policy limits the average maturity on its portfolio to four years, with certain individual securities having more restrictive limits as defined in the policy.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

Concentration of Credit Risk - the risk of loss attributed to the magnitude of the University's investment in a single issuer. Neither the University's investment policy nor state statutes place limits on amounts that can be invested in any one issuer; however, the State Treasurer Investment Policy states that, with the exception of U.S. Treasury securities, no more than 50 percent of the State's total funds may be invested in a single security type or with a single financial institution, with diversification percentages being more restrictive on individual securities. At June 30, 2020 and 2019, no investments in any one organization (other than those issued or sponsored by the U.S. government and those in pooled investments) represented 5 percent of total investments.

Custodial Credit Risk – for an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities in the possession of an outside party. Investments held by counterparty are held in the University's name.

At June 30, the fair value of the University's investments consisted of the following:

	<b>2020</b>	<b>2019</b>
U.S. government securities	\$ 12,440	\$ 14,965
U.S. Treasury notes	71,762	62,700
Money market funds	18,298	19,746
Equity securities	2,807	2,757
State Regents Endowment Trust funds	584	665
	<hr/>	<hr/>
Total investments	<u>\$ 105,891</u>	<u>\$ 100,833</u>

The University's investments are categorized by maturity dates to reflect the fair values that are sensitive to changes in interest rates.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

The University's investment schedule by maturity date as of June 30, 2020, is as follows:

<b>Maturity Year Ending June 30</b>	<b>U.S. Government Securities</b>	<b>U.S. Treasury Notes</b>	<b>Total</b>
2021	\$ 1,850	\$ 11,928	\$ 13,778
2022	2,153	2,660	4,813
2023	545	692	1,237
2024	383	23,256	23,639
2025	280	15,452	15,732

2031 - 2035	884	-	884
2036 - 2040	3,341	-	3,341
2041 - 2045	1,795	-	1,795
2046 - 2050	463	-	463
	<u>\$ 12,440</u>	<u>\$ 71,762</u>	84,202
Investments not subject to maturity dates			
Money market funds			18,298
Equity funds			2,807
State Regents Endowment Trust funds			584
Total investments			\$ 105,891

**Assets Held in Trust**

At June 30, 2020 and 2019, the University held investments in trust for three higher education institutions that are also under the governance of the Board of Regents. Such investments consist of U.S. government securities and money market accounts. These investments are maintained in separate internal investment accounts for each participant for reporting purposes. These investments bear interest at rates from .125 percent to 9.0 percent, with maturities from April 2020 through August 2044. Investments in money market accounts totaled \$2 and \$2 at June 30, 2020 and 2019, respectively.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

Condensed statements of net position and changes in net position of the investments held in trust at fair value are as follows for the years ended June 30:

	<u>2020</u>	<u>2019</u>
Net assets held in trust at beginning of period	\$ 484	\$ 470
Withdrawal of funds	(20)	(20)
Net interest, realized gains, and fees	32	20
Net increase (decrease) in fair value	<u>(13)</u>	<u>14</u>
Net assets held in trust at end of period	<u>\$ 483</u>	<u>\$ 484</u>

**Note 3: Accounts Receivable**

Accounts receivable consisted of the following at June 30:

	<u>2020</u>	<u>2019</u>
Student tuition and fees	\$ 32,527	\$ 28,903
Auxiliary enterprises and other operating activities	38,053	48,223
Contributions and gifts	10,654	7,803
Federal appropriations	1,675	2,235
Federal, state and private grants, and contracts	<u>43,402</u>	<u>33,647</u>
	126,311	120,811
Less allowance for doubtful accounts	<u>12,085</u>	<u>12,252</u>
Net accounts receivable	<u>\$ 114,226</u>	<u>\$ 108,559</u>

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

**Note 4: Inventories**

Inventories consisted of the following at June 30:

	<b>2020</b>	<b>2019</b>
Bookstore	\$ 3,406	\$ 3,503
Livestock - College of Agriculture	1,603	2,207
Fire protection publications	2,389	1,931
Food services	329	321
Physical plant	473	510
Other	1,444	859
	\$ 9,644	\$ 9,331

**Note 5: Student Loans Receivable**

Student loans made through the Federal Perkins Loan Program (the “Program”) comprise substantially all of the loans receivable at June 30, 2020 and 2019. Under this Program, the federal government provides funds for approximately 75 percent of the total contribution for student loans with the University providing the balance. Under certain conditions, such loans can be forgiven at annual rates of 10 percent to 30 percent of the original balance up to maximums of 50 percent to 100 percent of the original loan. The federal government reimburses the University to the extent of 10 percent of the amounts forgiven for loans originated prior to July 1, 1993, under the Program. No reimbursements are provided for loans originated after this date. The Perkins Loan Programs for the OSU Institute of Technology and the Center for Health Sciences were liquidated in fiscal year 2019 reducing the total liability. Amounts refundable to the federal government upon cessation of the Program of approximately \$10,104 and \$12,303 at June 30, 2020 and 2019, respectively, are reflected in the accompanying statements of net position as noncurrent liabilities.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The allowance for uncollectible loans only applies to University funded loans and the University portion of federal student loans, as the University is not obligated to fund the federal portion of uncollected student loans. The University has provided an allowance for uncollectible loans, which, in management’s opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2020 and 2019, the allowance for uncollectible loans was approximately \$108 and \$109, respectively.

Additional information regarding revenue bonds payable is included at *Note 9*. Additional information regarding capital lease obligations is included at *Note 10*.

*Landfill Closure and Postclosure Costs:* State laws and regulations require the University to place a final cover on its landfill site and to perform certain maintenance and monitoring functions, including evaluation of well water samples, at the site after closure. The landfill, containing radioactive and chemical waste, is no longer being used, but the University has not placed a final cover on it. Estimated closure and postclosure costs as of June 30, 2020 and 2019, are \$2,937. Actual cost may differ due to inflation, changes in technology, or changes in regulations.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

Principal and interest on these revenue bonds are collateralized by a pledge of revenues produced by the facilities constructed with the bond proceeds, student activity fees and facility fees, and/or a pledge of certain contributions made for the benefit of the University. In the case of the General Revenue Bonds, the principal and interest is secured by a pledge of the general revenues of the financing system created in fiscal year 2009. General revenues consist of all lawfully available funds excluding: (i) revenues appropriated by the Oklahoma Legislature from tax receipts; (ii) funds whose purpose has been restricted by the donors or grantors thereof to a purpose inconsistent with the payment of obligations; and (iii) funds pledged pursuant to separate bond resolutions to revenue bond issues issued and outstanding prior to the creation of the financing system. The financing system is currently comprised of the Oklahoma State University-Stillwater and Oklahoma State University-Tulsa campuses. Certain of these bonds payable are callable at the option of the Board of Regents. The General Revenue Bonds have varying maturity dates as noted, with the last payment date in September 2050.

The University is required to maintain certain renewal and replacement and debt service reserves aggregating \$292 in 2020 and 2019. The University's reserve balances exceeded these amounts at June 30, 2020 and 2019.

The University has secured insurance contracts with insurance companies to cover the reserve requirements in the debt agreements of the Oklahoma State University – Okmulgee Student Fee Revenue Bonds, Series 2004. There is no reserve requirement for the General Revenue Bond issues.

The General Revenue and Refunding Bonds, Series 2019A in the par amount of \$62,990, and the General Revenue and Refunding Bonds, Series 2019B in the par amount of \$12,555 closed on May 9, 2019. Gross bond proceeds, including discount and premium, totaled \$71,890 and \$12,525, respectively. These bond issues resulted in a premium of \$9,051 which is being amortized over the life of the bonds. A portion of the Series 2019 bond proceeds were used to advance refund Oklahoma Development Finance Authority leases. The University's advance refunding resulted in a net present value savings of \$10,367 and a cash flow savings of \$13,760.

The General Revenue and Refunding Bonds, Series 2020A in the par amount of \$118,520, the General Revenue Bonds, Series 2020B in the par amount of \$26,490, and the General Revenue and Refunding Bonds, Federally Taxable Series 2020C in the par amount of \$126,745 closed on May 13, 2020. Gross bond proceeds, including discount and premium, totaled \$149,836, \$30,045, and \$126,486, respectively. These bond issues resulted in a premium of \$35,168 which is being amortized over the life of the bonds.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

Proceeds from Series 2020A were used for the current refunding of General Revenue Bonds Series 2010A and 2010C. A portion of the Series 2020C bond proceeds were used for the advance refunding of General Revenue Bonds 2013C and for the current refunding of Oklahoma Development Finance Authority leases. The University's refunding resulted in a net present value saving of \$36,974 and a cash flow savings of \$29,423. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$15,105. This difference, reported in the accompanying financial statements as a deferred outflow of resources, is being charged to interest expense starting in fiscal year 2021 using the straight-line method, which is not materially different than the effective-interest method.

### ***Maturity Information***

The scheduled maturities of the revenue bonds are as follows at June 30, 2020:

<b>Year Ending June 30</b>	<b>Principal</b>	<b>Interest</b>	<b>Total Payment</b>
2021	\$ 8,790	\$ 17,672	\$ 26,462
2022	9,545	19,548	29,093
2023	17,960	19,113	37,073
2024	21,490	18,551	40,041
2025	21,950	17,876	39,826
2026 - 2030	115,015	74,582	189,597
2031 - 2035	118,045	47,810	165,855
2036 - 2040	121,165	25,129	146,294
2041 - 2045	47,700	8,701	56,401
2046 - 2050	20,445	1,598	22,043
2051 - 2055	1,565	24	1,589
	<u>\$ 503,670</u>	<u>\$ 250,604</u>	<u>\$ 754,274</u>

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 10: Lease Obligations

#### ***Equipment Leases***

The University has acquired certain equipment under various lease-purchase contracts and other capital lease agreements. The cost of University assets held under capital leases totaled \$1,592 and \$1,592 as of June 30, 2020 and 2019, respectively. Accumulated amortization of leased equipment totaled \$796 and \$699 at June 30, 2020 and 2019, respectively.

#### ***Oklahoma Capital Improvement Authority Leases***

The Oklahoma Capital Improvement Authority (OCIA) is authorized to issue bonds, notes, or other obligations to finance construction of buildings or other facilities for the State of Oklahoma, its departments and agencies. OCIA may also issue refunding bonds to refinance its existing obligations. The OCIA issues bonds and the State Regents for Higher Education allocate amounts to the University, who then enters into lease agreements with OCIA for projects being funded. The lease agreements provide for the University to make specified monthly payments, however during the years ended June 30, 2020 and 2019, OCIA made lease principal and interest payments totaling \$2,695 and \$4,726, respectively, on behalf of the University. These on-behalf payments have been recorded as restricted state appropriations, shown as on-behalf payments for OCIA capital leases, in the University's statements of revenues, expenses, and changes in net position. The leases range from 5 - 25 years and secure the OCIA bond debt and any future debt that might be issued to refund earlier bond issues. There were no undrawn allotments as of June 30, 2020 and 2019.

As OCIA restructures the bond obligations, the leases are also restructured which can result in a gain or loss on restructuring, which is recorded as deferred inflows of resources or deferred outflows of resources and amortized over the shorter of the remaining life of the old lease or the life of the new lease. As of June 30, 2020 and 2019, \$4,137 and \$4,456, respectively, were included in deferred inflows of resources. The balance outstanding for these leases, including premiums, was \$59,094 and \$59,182 as of June 30, 2020 and 2019, respectively.

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

In connection with the ODFA Master Lease Program, the University has recorded a receivable from ODFA, totaling \$0 and \$5,861 for the allotments not drawn down as of June 30, 2020 and 2019, respectively. A corresponding lease obligations payable to ODFA for the total amounts of the undrawn allotments has also been recorded in unexpended plant funds. All bond issuance costs were expensed.

Future minimum lease payments for all capital lease obligations as of June 30, 2020, are as follows:

Year Ending June 30	Equipment Leases	ODFA Leases	OCIA Leases	Interest	Total
2021	\$ 60	\$ 14,227	\$ 1,702	\$ 14,052	\$ 30,041

### Note 11: Funds Held In Trust By Others

#### ***Beneficial Interest in State School Land Funds***

The University has a beneficial interest in the “Section Thirteen Fund State Educational Institutions” and the “New College Fund” held in the care of the Commissioners of the Land Office as Trustees. The University has the right to receive annually 30 percent of the distributions of income produced by “Section Thirteen Fund State Educational Institutions” assets and 100 percent of the distribution of income produced by the University’s “New College Fund.” The University received \$7,786 and \$7,913 during the years ended June 30, 2020 and 2019, respectively, which is restricted to the acquisition of buildings, equipment, or other capital items. Present state law prohibits the distribution of any corpus of these funds to the beneficiaries. The total trust fund for the University, held in trust by the Commissioners of the Land Office, is approximately \$141,185 and \$153,719 as of June 30, 2020 and 2019, respectively.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

***Oklahoma State Regents Endowment Trust Fund***

The State has matched contributions received under the Endowed Chair Program. The State match amount, plus retained accumulated earnings, totaled approximately \$192,457 and \$206,725 at June 30, 2020 and 2019, respectively, and is invested by the Oklahoma State Regents on behalf of the University. The University is entitled to receive an annual distribution on these funds; however, since legal title of the State match amount is retained by the Oklahoma State Regents, such funds have not been reflected in the accompanying financial statements. With regard to private matching funds, approximately \$2,641 and \$2,789 from donor matching funds and \$410 and \$433 in institutional matching funds as of June 30, 2020 and 2019, respectively, are on deposit with the Oklahoma State Regents for Higher Education, with the remaining matching funds of approximately \$247,707 and \$243,422 as of June 30, 2020 and 2019, respectively, held by the Oklahoma State University Foundation.

**Note 12: Retirement Plans**

Beginning in 1935, eligible employees were guaranteed a 50 percent income replacement upon retirement at age 65 or 25 years of service. Upon retirement, an eligible retiree could receive supplemental lifetime income via the OSU Supplement Plan. However, with the establishment of the Teacher's Retirement System of Oklahoma (OTRS) in 1943 and establishment of OSU's Defined Contribution Plan in 1971, with TIAA-CREF as the provider, it was determined that no employees would become eligible for supplemental income after June 30, 1996. However, OSU does continue to have a limited number of retirees (or surviving spouses) receiving monthly income from this Plan.

The University has provided eligible employees the opportunity to participate in a defined contribution plan, the TIAA plan (formerly TIAA-CREF), and two defined benefit plans, the Teachers' Retirement System of Oklahoma (OTRS) and the Supplemental Retirement Plan. Effective June 30, 1996, the University terminated the Supplemental Retirement Plan such that no future retirees will be eligible to receive benefits under the plan.

The TIAA and the OTRS plans are integrated with the University's ongoing retirement program. Effective July 1, 1993, these eligibility requirements were modified; however, any employee eligible under the previous requirements was included in the modified plan pursuant to a grandfather provision. Eligible employees include all faculty, exempt and nonexempt continuous regular staff who are scheduled to work at least 1,560 hours annually. Employees hired after June 30, 2004, are not eligible for the integrated plan. The University's retirement program requires the University to contribute 11.5 percent of salary for employees hired on or after July 1, 1993, and for employees hired before July 1, 1993, the University pays the first \$1.5 of the OTRS cost in the fiscal year plus 10 percent of salary over \$7.8 up to \$48 and 11.5 percent on salary over \$48. These retirement contributions are first distributed to the OTRS on mandatory members and optional members who were grandfathered July 1, 1993, as determined by the calculation of OTRS contributions as defined below (see Contributions). Any remaining retirement contributions are distributed to the TIAA plan.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

Effective July 1, 2004, eligible new hires must make a one-time irrevocable election. Eligible employees must choose either the Alternate Retirement Plan (ARP) or OTRS. For those electing OTRS, the University will contribute the required member and employer contributions. For those electing the ARP, the University contributes 11.5 percent of salary. All ARP contributions are forwarded to TIAA. Should the eligible new hire not make an election within 30 days of hire, he/she will be default enrolled in OTRS. Regardless of the election of the new hire, the University makes contributions retroactive to the date of hire. The ARP does have a 100 percent cliff vesting provision of two years. Effective July 1, 2018, eligible new hires who choose OTRS must make the required member contribution.

### Teachers' Retirement System of Oklahoma (OTRS)

#### *Plan Description*

The University contributes to the OTRS, a cost-sharing multiple-employer defined benefit pension plan sponsored by the State of Oklahoma. The OTRS provides retirement, disability, and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the legislature of the State. Title 70 of the Oklahoma Statutes, Sections 17-101 through 17-116.9, as amended, assigns the authority for management and operation of the OTRS to the Board of Trustees of the OTRS. The OTRS issues a publicly available financial report that includes financial statements and supplementary information for the OTRS. That report may be obtained by writing to Oklahoma Teachers Retirement System, P.O. Box 53524, Oklahoma City, Oklahoma, 73152-3524 or by calling (877) 738-6365 (toll free).

#### *Benefits Provided*

OTRS provides defined retirement benefits based on members' final compensation, age, and term of service. In addition, the retirement program provides for benefits upon disability and to survivors upon the death of eligible members. Title 70 O.S. Sec. 17-105 defines all retirement benefits. The authority to establish and amend benefit provisions rests with the State Legislature.

Benefit provisions include:

- Members that joined OTRS prior to November 1, 2017, become 100 percent vested in retirement benefits earned to date after five years of credited Oklahoma service. Members who joined OTRS after October 31, 2017, become 100 percent vested in retirement benefits earned to date after seven years of credited Oklahoma service. Members who joined OTRS on June 30, 1992, or prior are eligible to retire at maximum benefits when age and years of creditable service total 80. Members joining OTRS after June 30, 1992, are eligible for maximum benefits when their age and years of creditable service total 90. Members whose age and service do not equal the eligible limit may receive reduced benefits as early as age 55, and at age 62 receive unreduced benefits based on their years of service. For those joining OTRS after October 31, 2011, the reduced benefit provision applies as early as age 60 and at 65 receive unreduced benefits based on years of service. The maximum retirement benefit is equal to 2 percent of final compensation for each year of credited service.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

- Final compensation for members who joined OTRS prior to July 1, 1992, is defined as the average salary for the three highest years of compensation. Final compensation for members joining OTRS after June 30, 1992, is defined as the average of the highest five consecutive years of annual compensation in which contributions have been made. The final average compensation is limited for service credit accumulated prior to July 1, 1995, to \$40 or \$25, depending on the member's election. Monthly benefits are 1/12 of this amount. Service credits accumulated after June 30, 1995, are calculated based on each member's final average compensation, except for certain employees of the state's two comprehensive universities: University of Oklahoma and Oklahoma State University.
- Upon the death of a member who has not yet retired, the designated beneficiary shall receive the member's total contributions plus 100 percent of interest earned through the end of the fiscal year, with interest rates varying based on time of service. A surviving spouse of a qualified member may elect to receive, in lieu of the aforementioned benefits, the retirement benefit the member was entitled to at the time of death as provided under the Joint Survivor Benefit Option.
- Upon the death of a retired member, OTRS will pay \$5 to the designated beneficiary, in addition to the benefits provided for the retirement option selected by the member.
- A member is eligible for disability benefits after ten years of credited Oklahoma service. The disability benefit is equal to 2 percent of final average compensation for the applicable years of credited service.
- Upon separation from OTRS, members' contributions are refundable with interest based on certain restrictions in the plan, or by the IRC.
- Members may elect to make additional contributions to a tax-sheltered annuity program up to the exclusion allowance provided under the IRC under Code Section 403(b).

### **Contributions**

Employees of the University, as OTRS members, are required to contribute to the plan at a rate established by the legislature of the State. For the years ended June 30, 2020 and 2019, the contribution rate for the system members of 7 percent is applied to their total compensation. The University made the majority of the system member's required contributions on behalf of its employees in 2020, 2019, and 2018.

For the years ended June 30, 2020, 2019, and 2018, the local employer contribution rate due from the University was 8.55 percent.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

In addition, the University is required to contribute 2.5 percent for some employees who elect not to participate in OTRS due to the one-time irrevocable election provision which became effective July 1, 2004. The University's total contributions for employer contributions and fees for the years ended June 30, 2020, 2019, and 2018, were \$19,906, \$23,287, and \$24,581, respectively.

The University's contributions for OTRS members for the years ended June 30, 2020, 2019, and 2018, were \$17,045, \$18,397, and \$18,699, respectively, these amounts being the majority of the required contributions for OTRS members for each year.

In addition for the years ended June 30, 2020 and 2019, the State of Oklahoma contributed on-behalf of the University \$17,530 and \$21,698, respectively. The University recognized these contributions in the University's Statement of Revenues, Expenses, and Changes in Net Position as both revenues and compensation and employee benefit expense. These on-behalf payments do not meet the definition of a special funding situation.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OTRS***

At June 30, 2020 and 2019, the University reported a liability of \$366,900 and \$360,499, respectively, for its proportionate share of the OTRS's net pension liability. The net pension liability was measured as of June 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates.

The University's proportion of the net pension liability was based on its proportionate share based on the University's actual contributions to the plan relative to the actual contributions of the plan from all participating employers. An additional adjustment is made to this allocation based on three entity's, short-term obligation to pay a 2.5 percent funding surcharge associated with the Alternate Retirement Plan. Based upon this information, the University's proportion was 5.54 percent, 5.92 percent, and 5.58 percent for the years ended June 30, 2020, 2019, and 2018, respectively.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

For the years ended June 30, 2020 and 2019, the University recognized pension expense in accordance with GASB Statement No. 68, *Accounting and Reporting for Pensions – an amendment of GASB Statement No. 27* of \$50,828 and \$40,846, respectively, for the employer share of the pension liability. This expense also includes the \$17,530 and \$21,698, for 2020 and 2019, respectively, on behalf of payments by the State of Oklahoma. At June 30, 2020 and 2019, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>2020</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 18,835	\$ 15,723
Changes of assumptions	19,263	12,382
Net difference between projected and actual earning on pension plan investments	2,488	-
Changes in proportion and differences between the University's contributions and the University proportionate share of contributions	27,256	19,384
University's contributions subsequent to the measurement date	<u>18,807</u>	<u>-</u>
Total	<u><u>\$ 86,649</u></u>	<u><u>\$ 47,489</u></u>
	<b>2019</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ -	\$ 24,743
Changes of assumptions	33,556	18,333
Net difference between projected and actual earning on pension plan investments	-	6,222
Changes in proportion and differences between the University's contributions and the University proportionate share of contributions	40,284	-
University's contributions subsequent to the measurement date	<u>20,254</u>	<u>-</u>
Total	<u><u>\$ 94,094</u></u>	<u><u>\$ 49,298</u></u>

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

As of June 30, 2020 and 2019, the University reported \$18,807 and \$20,254, as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date, that will be recognized as a reduction of the net pension liability in the years ending June 30, 2020 and 2019, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources at June 30, 2020, related to the OTRS pension plan will be recognized in pension expense as follows:

<b>Year Ending June 30,</b>	
2021	\$ 20,328
2022	(4,493)
2023	(1,100)
2024	5,660
2025	(42)
	<u>\$ 20,353</u>

### **Actuarial Assumptions**

The total pension liability in the June 30, 2019 and 2018, actuarial valuations were determined using the following actuarial assumptions:

	<b>2020</b>	<b>2019</b>
Valuation date	June 30, 2019	June 30, 2018
Actuarial cost method	Entry age actuarial cost method	
Amortization method	Level percentage of payroll, open	
Remaining amortization period	5 years	
Asset valuation method	5 year market value	
Discount rate	7.50%	7.50%
Investment rate of return	7.50%	7.50%
Inflation rate	2.50%	2.50%
Salary increase rate	3.25%	3.25%
Payroll growth rate	2.75%	2.75%
Retirement age	Experience-based tables of rates based on age, service, and gender	
Mortality tables	Various based upon age and gender	

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic expected real rates of return for each major asset class as of June 30, 2019 and 2018, are summarized in the following tables:

<b>Asset Class</b>	<b>2019</b>	
	<b>Target Asset Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate**	9.0%	4.5%
Alternative Assets	<u>10.0%</u>	6.1%
	<u><u>100.0%</u></u>	

\*\*The Real Estate total expected return is a combination of U.S. Direct Real Estate (unlevered) and U.S. Value added Real Estate (unlevered)

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

Asset Class	2018	
	Target Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	38.5%	7.5%
International Equity	19.0%	8.5%
Fixed Income	23.5%	2.5%
Real Estate**	9.0%	4.5%
Alternative Assets	10.0%	6.1%
	<u>100.0%</u>	

\*\*The Real Estate total expected return is a combination of U.S. Direct Real Estate (unlevered) and U.S. Value added Real Estate (unlevered)

### **Discount Rate**

The discount rate used to measure the total pension liability was 7.5 percent for the years ended June 30, 2020 and 2019. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 5 percent of sales, use and individual income taxes, as established by statute. Based on these assumptions, OTRS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### ***Sensitivity of the Net Pension Liability to Changes in the Discount Rate***

The following tables present the net pension liability of the University, prior to the separate ARP allocation, calculated using the discount rate of 7.5 percent, as well as what the University's net pension liability would be if OTRS calculated the total pension liability using a discount rate that is 1 percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

	<b>1% Decrease (6.50%)</b>	<b>2020 Current Discount Rate (7.50%)</b>	<b>1% Increase (8.50%)</b>
University's proportionate share of the net pension liability	\$ 517,002	\$ 366,900	\$ 241,332

	<b>1% Decrease (6.50%)</b>	<b>2019 Current Discount Rate (7.50%)</b>	<b>1% Increase (8.50%)</b>
University's proportionate share of the net pension liability	\$ 509,581	\$ 360,499	\$ 231,781

### ***Pension Plan Fiduciary Net Position***

Detailed information about the pension plan's fiduciary net position is available in the separately issued OTRS' financial report.

### ***Payable to the Pension Plan***

The University reported a payable of \$1,809 and \$2,107 for the outstanding amount of contributions to the pension plan required for the years ended June 30, 2020 and 2019, respectively.

### **Defined Contribution Plan**

On May 8, 1971, the University approved a contract providing for a funded plan for staff retirement, the TIAA plan. The TIAA plan, which is a defined contribution plan qualified under Internal Revenue Code Section 401(a), provides an annuity in the name of the employee based upon contributions made by the University. All contributions to the TIAA are fully vested immediately.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

The University's total payroll for the years ended June 30, 2020, 2019, and 2018, was approximately \$479,193, \$475,644, and \$458,549, respectively. The University's contributions to the TIAA were calculated using the base salary amount of approximately \$287,041, \$268,170, and \$258,023 in 2020, 2019, and 2018, respectively. The University funded participant ARP and integrated plan contributions to the TIAA of approximately \$24,638, \$22,161 and \$20,631 in 2020, 2019 and 2018, respectively, which represents approximately 7 percent of covered payroll in each period.

Employees may voluntarily contribute, on a pretax basis, to the 403(b) Supplemental Tax Deferred Annuity Program and/or the 457(b) Deferred Compensation Plan, but such contributions are not considered part of the University's retirement program.

As of June 30, 2020, 2019, and 2018, the TIAA held no related party investments of the University.

**Oklahoma Law Enforcement Retirement System (OLERS)**

***Plan Description***

The Oklahoma Law Enforcement Retirement System (OLERS) is administrator of the Oklahoma Law Enforcement Retirement Plan, a cost-sharing defined benefit pension plan established by Oklahoma statutes. OLERS is a component unit of the State of Oklahoma (the "State") and is part of the State's reporting entity. Currently, agencies and/or departments who are members of OLERS are the Oklahoma Highway Patrol and Capitol Patrol of the Department of Public Safety (DPS), the Oklahoma State Bureau of Investigation, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Alcoholic Beverage Law Enforcement Commission, certain members of the DPS Communications Division, DPS Waterways Lake Patrol Division, park rangers, park managers, and park supervisors of the Oklahoma Tourism and Recreation Department, inspectors of the Oklahoma State Board of Pharmacy and Oklahoma University and Oklahoma State University campus police officers.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OLERS***

At June 30, 2020 and 2019, the University reported a liability of \$5,005 and \$3,753, respectively, for its proportionate share of the OLERS's net pension liability. The net pension liability was measured as of June 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability which was determined by an actuarial valuation as of those dates.

The University's proportion of the net pension liability was based on its proportionate share based on the University's actual contributions to the plan relative to the actual contributions of the plan from all participating employers. Based upon this information, the University's proportion was 3.45 percent, 3.50 percent, and 2.95 percent for the years ended June 30, 2020, 2019, and 2018, respectively.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

For the years ended June 30, 2020 and 2019, the University recognized pension expense of \$1,887 and \$1,239, respectively. At June 30, 2020 and 2019, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>2020</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 651	\$ 169
Changes of assumptions	17	-
Net difference between projected and actual earning on pension plan investments	737	-

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### ***Supplemental Retirement Plan***

#### **Plan Description**

The University sponsors the Supplemental Retirement Plan (the “Plan”), a single-employer public employee retirement system, which was approved in 1971 and terminated as of June 30, 1996. Individuals employed by the University on or after July 1, 1980, when the TIAA-CREF annuity contribution became fully funded, were ineligible for participation in the Plan. Benefits vested upon retirement. The Plan guaranteed eligible employees with 25 years of service, provided they continuously participated in TIAA/CREF and the OTRS, a level of annual retirement benefit if Social Security, the OTRS, and the TIAA-CREF, when applicable, do not equal one-half of the average of the highest three years’ earnings. Authority to establish and amend benefit provisions rests with the Board of Regents. The Plan does not issue a stand-alone financial report.

#### **Funding Policy**

Contribution requirements of the University are established and may be amended by the Board of Regents. All contributions are made by the University. Benefits are funded under a “pay as you go” funding method; however, expenses are recorded as benefits accumulate.

### ***Other Postemployment Benefits***

#### ***Life Insurance***

#### **Plan Description**

The University pays life insurance premiums for individuals who meet the specified criteria to be considered a retiree as of the last day of continuous regular employment. Eligible retirees must (a) be at least 62 years of age and have at least 10 continuous regular years of service, (b) have worked for the University for at least 25 years in a continuous regular appointment, regardless of age, or (c) meet the OTRS guidelines. In addition, the individual must also have been enrolled in the University’s life insurance program prior to retirement. Each retiree is eligible to receive \$6 of life insurance coverage at an annual cost to the University of \$.00029 per \$1 of coverage. As of June 30, 2020 and 2019, there were approximately 5,900 active employees and 1,900 retirees. Authority to establish and amend benefit provisions rests with the Board of Regents.

#### **Funding Policy**

Contribution requirements of the University are established and may be amended by the Board of Regents. All contributions are made by the University. Benefits are funded under a “pay as you go” funding method and there are no plan assets; however, expenses are recorded as benefits accumulate.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### **Health Care Implicit Rate Subsidy**

#### Plan Description

The University allows retirees to remain in the University's health care plan, although the retiree is required to pay 100 percent of the premium. By allowing retirees to be included in the same pool as active employees, this gives retirees a benefit of a lower premium cost than if the retiree obtained health insurance on his or her own, which is referred to as the implicit rate subsidy. As of June 30, 2020, there were approximately 5,900 active employees and 200 retirees in the health care plan.

#### **Liabilities, Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Other Postemployment Benefits**

At June 30, 2020 and 2019, the University reported a combined liability of \$15,548 and \$14,027, respectively, for the life insurance and health care implicit rate subsidy. For the years ended June 30, 2020 and 2019, the University recognized OPEB expense of \$1,931 and \$1,406, respectively. The University reported deferred outflows of resources related to other postemployment benefits from the following sources for the years ended June 30, 2020 and 2019, as noted below.

	<b>2020</b>	<b>2019</b>
	<b>Deferred</b>	<b>Deferred</b>
	<b>Outflows of</b>	<b>Outflows of</b>
	<b>Resources</b>	<b>Resources</b>
Differences between expected and actual experience	\$ 3,292	\$ 3,751
Changes of assumptions	3,661	2,598
Total	\$ 6,953	\$ 6,349

The balance as of June 30, 2020, of the deferred outflows of resources will be recognized in the OPEB expense in the future fiscal years as noted below.

Years ending June 30:

2021	\$ 949
2022	949
2023	949
2024	949
2025	948
Thereafter	2,209
	\$ 6,953

### Actuarial Assumptions

The other postemployment liability in the June 30, 2020 and 2019, actuarial valuation was determined using the following actuarial assumptions:

	<b>2020</b>	<b>2019</b>
Valuation date	June 30, 2020	June 30, 2019
Actuarial cost method	Entry Age Normal	
Discount rate	2.66%	3.51%
Inflation rate	3.25%	3.25%
Salary increase rate	3.25%	3.25%
Retirement age	Experience-based tables of rates based on age, service, and gender

### ***Sensitivity of the Other Postemployment Liability to Changes in the Discount Rate***

The following table presents the net other postemployment liability as of June 30, 2020 and 2019, calculated using a discount rate of 2.66 percent and 3.51 percent, respectively, and what it would be using a 1 percent higher and 1 percent lower discount rate.

	<b>2020</b>		
	<b>1% Decrease (1.66%)</b>	<b>Current Discount Rate (2.66%)</b>	<b>1% Increase (3.66%)</b>
University's net other postemployment liability	\$ 17,746	\$ 15,548	\$ 13,761

	<b>2019</b>		
	<b>1% Decrease (2.51%)</b>	<b>Current Discount Rate (3.51%)</b>	<b>1% Increase (4.51%)</b>
University's net other postemployment liability	\$ 15,819	\$ 14,027	\$ 12,554

### ***Sensitivity of the Other Postemployment Liability to Changes in the Health Care Trend Rates***

The following table presents the net other postemployment liability as of June 30, 2020 and 2019, calculated using a health care trend rate starting at a rate 1 percent higher and lower than the initial rate of 7.50 percent and 8.00 percent as of June 30, 2020 and 2019, respectively.

	<b>2020</b>		
	<b>1% Decrease (6.50%)</b>	<b>Current Discount Rate (7.50%)</b>	<b>1% Increase (8.50%)</b>
University's net other postemployment benefit	\$ 14,944	\$ 15,548	\$ 16,273

	<b>2019</b>		
	<b>1% Decrease (7.00%)</b>	<b>Current Discount Rate (8.00%)</b>	<b>1% Increase (9.00%)</b>
University's net other postemployment benefit	\$ 13,537	\$ 14,027	\$ 14,609

### ***OTRS/Health Care Plan***

#### **Plan Description**

At retirement, if an employee is enrolled in the OTRS plan and is participating in the University's health care plan, the retiree may elect to continue health insurance coverage in the University's health care plan. OTRS will pay the first one hundred dollars to one hundred and five dollars of monthly premiums for each participating retiree (not dependents). The actual amount paid by OTRS is determined by total service and average salary at retirement.

As of June 30, 2020 and 2019, the University recorded an asset for other postemployment benefits of \$3,428 and \$3,827 for its proportionate share of the OTRS's OPEB, deferred outflows of \$112 and \$172 and deferred inflows of \$1,764 and \$2,675, respectively. These balances were measured as of June 30, 2019 and 2018, and were determined by an actuarial valuation.

#### ***Actuarial Assumptions***

The other postemployment benefit at June 30, 2020 and 2019, was determined using the following actuarial assumptions:

	<u>June 30, 2020</u>	<u>June 30, 2019</u>
Actuarial cost method		Entry Age Normal
Discount rate		7.50%
Inflation rate		2.50%
Salary increase rate		3.25%
Investment rate of return		7.50%
Retirement age		Experience-based tables of rates based on age, service, and gender
Mortality tables		Various based upon age and gender

### ***Sensitivity of the Other Postemployment Benefit to Changes in the Discount Rate***

The following table presents the other postemployment benefit as of June 30, 2020, calculated using the current discount rate of 7.50 percent and what it would be using a 1 percent higher (8.50 percent) and 1 percent lower (6.50 percent) discount rate.

	<b>1% Decrease (6.50%)</b>	<b>2019 Current Discount Rate (7.50%)</b>	<b>1% Increase (8.50%)</b>
University's proportionate share of the net other postemployment benefit	\$ 1,149	\$ 3,428	\$ 5,375

	<b>1% Decrease (6.50%)</b>	<b>2018 Current Discount Rate (7.50%)</b>	<b>1% Increase (8.50%)</b>
University's proportionate share of the net other postemployment benefit	\$ 1,344	\$ 3,827	\$ 5,949

### **Note 13: Risk Management**

Due to the diverse risk exposure of the University and its constituent agencies, the insurance portfolio contains a comprehensive variety of coverage. Oklahoma Statutes require participation of all State agencies in basic tort, educator's legal liability, property and casualty programs and fidelity bonding provided by the Risk Management Division of the Office of Management and Enterprise Services (the "SRMD"). In addition to these basic policies, the University's Department of Risk and Property Management establishes enterprise risk management guidelines for risk assessment, risk avoidance, risk acceptance, and risk transfer.

Oklahoma State University and individual employees are provided sovereign immunity when performing official business within the scope of their employment under the Oklahoma Governmental Tort Claims Act. For risks not protected by sovereign immunity, it is the internal policy of the University's Risk and Property Management department to accept initial risk in the form of retention or deductibles only to the extent that funds are available from the University's general operations or a funded reserve to maintain this risk.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

Beyond acceptable retention levels, risk transfer is practiced by purchasing conventional insurance coverage through an insurance broker or through the SRMD. These coverages are outlined as follows:

- The buildings and contents are insured for replacement value. Each loss incident is subject to a \$100 deductible.
- Out-of-state and out-of-country comprehensive general liability, educator's legal liability including employment practices, auto liability, aircraft liability, watercraft liability, leased vehicles, equipment, and fidelity bonds are acquired by the University from the SRMD. To complement coverage provided by State Statute and to meet specific coverage requirements for special grants and/or contracts, additional coverage is purchased based on specific departmental and institutional needs and risks, but the related risks are not considered material to the University as a whole. Claim settlements have not exceeded insurance coverage in each of the past three fiscal years.

***Self-Funded Programs***

The University's life insurance program was self-funded through December 31, 2003. Effective January 1, 2004, life waivers for disabled employees and their dependents were all that remained in the self-funded plan. Reserves were established at the onset of disability to pay the claims. In 2009, the University reached an agreement to apportion the remaining reserve between the University and the former TPA, American Fidelity Assurance. American Fidelity Assurance assumed all liability for all runoff claims. Effective January 1, 2004, the University's life coverage is handled through an insured plan.

Through June 30, 1999, the University's health care programs were also self-funded. Effective July 1, 1999, the University terminated its self-insurance program, and participated in the State self-insurance program through December 31, 2007. Effective January 1, 2008, the University began participation in an insured program with BlueCross BlueShield of Oklahoma as the provider. The University believes that there is no exposure to pay run-off claims for the previous self-insured program at June 30, 2020. Beginning January 1, 2015, the University's health care program again became self-funded. BlueCross BlueShield is the third-party administrator. The University has employed Lockton Company as a consultant to assist with premium setting, development of plan features, reserve funding and use of third-party stop loss coverage insurance. At June 30, 2020 and 2019, respectively, the University had recorded a liability of approximately \$3,526 and \$3,661, respectively, for claims incurred but not yet paid and is included in accounts payable in the statements of net position.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

The University's workers' compensation program is self-funded and is administered by a third party. The University maintains a cash deposit with the administrator and reimburses the administrator for claims paid and administrative expenses on a monthly basis. Benefits provided are prescribed by State law and include lump-sum payments for rated disabilities, in addition to medical expenses and a portion of salary loss, resulting from a job-related injury or illness. The University records a liability for workers' compensation in its financial statements based on annual actuarial valuations. As of June 30, 2020 and 2019, the accrued workers' compensation liability totaled \$4,748 and \$5,655, respectively, computed utilizing a discount rate of 2 percent for each year.

The University's unemployment compensation insurance program is also self-funded. Unemployment benefits that separated employees receive are determined by Oklahoma Statutes and are administered by the Oklahoma Employment Security Commission (OESC). As a reimbursing employer, the University is billed quarterly by the OESC for benefits paid to former employees. The Board of Regents requires that the University maintain a minimum of \$700 in reserve to cover claims. This minimum cash balance is considered each year during the rate-setting process.

### Note 14: Related Party Transactions

A summary of related party transactions during the years ended June 30, 2020 and 2019, including a description of the relationship and operations are as follows:

#### ***Oklahoma State University Foundation***

Nature of Relationship: OSU Foundation is a not-for-profit corporation formed to promote and foster the educational, benevolent, and scientific purposes of the University, and to create a fund to be used for any program, project, or enterprise undertaken in the interest of the University, and to promote and foster educational and cultural interests in the State and the United States.

OSU Foundation is governed by an independent Board of Trustees who maintain no position at the University. Although the University does not control the timing or amount of receipts from OSU Foundation, the majority of resources, or income thereon, that OSU Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by OSU Foundation can only be used by, or for the benefit of, the University, OSU Foundation is considered a component unit of the University as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, and is separately presented.

Description of Operations: OSU Foundation acts largely as a fundraising organization: soliciting, receiving, managing, and disbursing contributions on behalf of the University based on terms of a service agreement. Most of the contributions received are designated by the donors to be used for specific purposes or by specific departments. In these instances, OSU Foundation serves essentially as a conduit. Contributions that are not designated are used where the need is considered greatest, as determined by OSU Foundation.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

Related party transactions and funds held by OSU Foundation on behalf of the University are as follows as of and for the years ended June 30:

	<b>2020</b>	<b>2019</b>
Dollar value of transactions for the year ended June 30		
Funds disbursed to or on behalf of the University	\$ 98,256	\$ 146,329
Funds collected from the University	2,846	2,765
Nonmonetary goods distributed to the University	1,752	5,896
Total net assets held on behalf of or for the benefit of the University at June 30	1,118,811	1,049,318
Related party receivables and payables at June 30		
Due to the University	2,552	4,773
Due from the University	6,775	8,323

***National Center for Addiction Studies and Treatment Foundation***

Nature of Relationship: NCAST is a nonprofit corporation formed to improve the lives of individuals in Oklahoma and across the nation that are affected by pain and substance abuse disorders through exceptional programs in research, education, prevention, treatment, and advocacy.

NCAST is governed by a Board of Directors primarily appointed by the University. The University does not have an ownership interest but has the ability to remove appointed members of the governing body. NCAST is considered a component unit of the University as defined by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, and is discretely presented.

Description of Operations: NCAST was created as a result of a consent settlement agreement between the State of Oklahoma and Purdue Pharma, Inc. (Purdue) in March 2019. The settlement agreement provided for a \$102,500,000 payment to be made to NCAST by Purdue. In addition, the owners of Purdue agreed within the settlement agreement to donate \$75,000,000 to NCAST.

***Cowboy Athletics, Inc. (CAI)***

Nature of Relationship: CAI is a not-for-profit Oklahoma corporation organized to support the University and other educational programs associated with the University.

CAI is governed by a seven-member Board of Directors, three of whom serve by virtue of their association with the University. The remaining four members are elected by the members. Although the University does not control the timing or amount of receipts from CAI, the majority of resources or income thereon that CAI holds and invests is restricted to the activities of the University. CAI is considered immaterial to the operations of the University and therefore, is not considered as a component unit.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

CAI also operates a golf course (Karsten Creek) and related facilities in Stillwater, Oklahoma. The golf course is primarily utilized as a teaching and practice facility by the University for the men’s and women’s golf teams. Use of the course is also open to golf course members and others based on established membership and usage fee schedules.

Description of Operations: CAI revenues consist primarily of contributions from the private sector, including individuals and corporations, green fees, pro shop sales, food and beverage sales, and membership fees. Charitable gifts made for use by the University’s Department of Intercollegiate Athletics are received, processed, and administered by OSU Foundation. Such contributions may be transferred to CAI at which time CAI recognizes contribution revenue. Other contributions are recorded when received or when a donor has announced an intention to give, and CAI believes that collection is probable. Green fees are recognized when earned. Pro shop sales, and food and beverage sales, are recorded when a sale is made – essentially on the cash basis. Membership fees are assessed on a calendar year basis, are nonrefundable, and are recognized in the year for which they apply. Funds are expended for any purpose consistent with promoting the primary objectives of CAI.

Related party transactions and funds held by CAI on behalf of the University as of and for the years ended June 30:

	<b>2020</b>	<b>2019</b>
Dollar value of transactions for the year ended June 30		
Funds disbursed to or on behalf of the University	\$ 773	\$ 500
Funds collected from the University	5,418	3,250
Nonmonetary goods distributed to the University	97,817	14,130
Related party receivables and payables at June 30		
Due to the University	25	16
Due from the University	53	114

In fiscal year 2020 CAI transferred the O’Brate Baseball Stadium in the amount of \$69,467, the Neal Patterson Soccer Stadium in the amount of \$21,896, the cross country maintenance building in the amount of \$99 to the University. CAI also transferred improvements to Gallagher-Iba Area in the amount of \$133, the equestrian facility in the amount of \$1,157, the Michael and Anne Greenwood Tennis Center in the amount of \$1,022, and the cross country facilities in the amount of \$3,208. There were gifts of equipment in the amount of \$835. The acquisitions are reflected as capital from grants, gifts, and affiliates of \$97,817 in the statement of revenues, expenses, and changes in net position of the University for the year ended June 30, 2020.

In fiscal year 2019, CAI transferred the Equestrian Facility in the amount of \$718 and improvements to the Cowgirl Softball Stadium and Boone Pickens Stadium in the amounts of \$85 and \$8,737, respectively. There were gifts of equipment for the Boone Pickens Stadium in the amount of \$4,587. The acquisitions are reflected as capital from grants, gifts, and affiliates of \$14,127 in the statement of revenues, expenses, and changes in net position of the University for the year ended June 30, 2019. The remaining \$3 pertains to equipment gifts that were below the capitalization threshold.

### ***OSU – University Multispectral Laboratories, L.L.C.***

Nature of Relationship: OSU – University Multispectral Laboratories, L.L.C. (OSU-UML) is a nonprofit limited liability company founded for the purposes of research, development, testing, evaluation, validation, and verification of sensors and other technologies in support of the global war on terrorism, homeland security, and other related national security requirements for the benefit of the University.

OSU-UML is governed by a board of directors comprised primarily of management of the University. The University is the sole member of OSU-UML. OSU-UML is considered immaterial to the operations of the University and therefore, is not separately presented as a component unit.

Description of Operations: Prior to fiscal year 2019, OSU-UML received and administered funds from federal and state organizations and from private sources for the purpose of carrying out certain research programs of the University. Funds were expended for purposes consistent with promoting the research activities of OSU-UML. The operations of OSU-UML have significantly decreased with limited activity in fiscal years 2020 and 2019. The process has begun for liquidating all accounts receivable and accounts payable and finalizing all federal contracts in preparation for the dissolution of this entity.

In fiscal year 2020 and 2019, OSURF made advances to OSU-UML in the amount of \$2,200 and \$2,475, respectively, for which an allowance for the total of the advances was also recorded.

### ***Oklahoma State University Alumni Association***

Nature of Relationship: Oklahoma State University Alumni Association (the “Association”) is a not-for-profit corporation formed to provide a corporate body through which alumni may unify their efforts to promote and encourage the growth and development of the University. The Association is considered immaterial to the operations of the University and therefore, is not separately presented as a component unit.

Description of Operations: The Association’s revenues consist primarily of dues, investment earnings, support from the University, and revenue from Association sponsored activities. Funds are expended for any purpose consistent with promoting the primary objectives of the Association. Related party transactions and funds held by the Association on behalf of the University are as follows as of and for the years ended:

	<b>2020</b>		<b>2019</b>
Dollar value of transactions for the year ended June 30			
Funds disbursed to or on behalf of the University	\$ 423	\$	549
Funds collected from the University	464		464

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

***Foundation for the McKnight Center for the Performing Arts***

Nature of Relationship: The Foundation for the McKnight Center for the Performing Arts (the “McKnight Center”) is a not-for-profit corporation formed to provide support and assistance to the University in connection with the performing arts including, but not limited to, providing funding for the performing arts, long-term management, and operations of the McKnight Center. It is considered immaterial to the operations of the University and therefore, is not separately presented as a component unit.

Description of Operations: The McKnight Center revenues consist primarily of program revenue, ticket sales, investment earnings, and support from the Oklahoma State University Foundation. Funds are expended for any purpose consistent with promoting the primary objectives of the McKnight Center.

**Note 15: Disclosures About Fair Value of Assets and Liabilities**

The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

***Recurring Measurements***

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2020 and 2019:

Description	2020			Total
	Level 1	Level 2	Level 3	
<b>Investments</b>				
U.S. government securities	\$ -	\$ 12,440	\$ -	\$ 12,440

U.S. government securities	\$ -	\$ 482	\$ -	\$ 482
Money market funds	2	-	-	2
<b>Total assets held in trust</b>	<b>\$ 2</b>	<b>\$ 482</b>	<b>\$ -</b>	<b>\$ 484</b>

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

U.S. government securities, U.S. Treasury notes, corporate bonds and notes, and State Regents Endowment Trust funds are valued on the basis of evaluated prices provided by independent pricing services when such processes are believed to reflect the fair market value of such securities and are classified within Level 2 of the fair value hierarchy.

Money market funds are principally valued at the regular trading session closing price on the exchange or market in which such funds are principally traded, on the last business day of each period presented and are classified within Level 1 of the fair value hierarchy.

Equity interest in a closely held entity is accounted for as an equity method investment and is not included in the table above.

**Note 16: Commitments, Contingent Liabilities, and Uncertainties**

The University had outstanding commitments under construction contracts of approximately \$20,915 and \$17,460 at June 30, 2020 and 2019, respectively.

The University is party to various lawsuits arising out of the normal conduct of its operations. In the opinion of University management, the ultimate resolution of these matters will not have a material adverse effect upon the University's financial position.

The University participates in certain federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Management believes disallowances, if any, will not be material.

**Note 17: Natural Classifications with Functional Classifications**

The University's operating expenses by functional classification were as follows for the years ended June 30, 2020 and 2019:

Functional Classification	Year Ended June 30, 2020

**Note 18: Current Economic Conditions**

As a result of the spread of the SARS-COV-2 virus and the incidence of COVID-19, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the University. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

**Note 19: Subsequent Events**

The University has evaluated events and transactions that occurred subsequent to June 30, 2020, through October 30, 2020, the date these financial statements were available to be issued, for potential recognition or disclosure in these financial statements.

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### **Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands)**

#### ***Organization***

Oklahoma State University Foundation (the “Foundation”) is a not-for-profit corporation formed in 1961 to promote the educational, benevolent, and scientific purposes of Oklahoma State University (the “University” or “OSU”). The Foundation, through the contributions it receives, provides funds for University projects and programs which cannot be funded by appropriations or grants from state and federal governments, or for which existing appropriations are inadequate.

#### ***Reporting Entity***

The consolidated financial statements include the assets, liabilities, net assets, changes in net assets, and cash flows of the Foundation and affiliates. The Foundation has approximately 5,700 active component funds, one affiliated organization, and two single-member limited liability companies. The affiliated organization is the Foundation for Engineering at Oklahoma State University, Inc. (FEOSU), which was incorporated on October 10, 2008, and is included with the Foundation in the accompanying consolidated financial statements because the Foundation has an economic interest in the organization and controls the affiliated organization’s Board of Trustees. Further, distributions made by the affiliated organization exclusively benefit the charitable purposes of the Foundation. The Foundation is also the sole member of the Oklahoma State University Student Foundation, LLC and the OSU Foundation Real Estate, LLC and as such the accompanying consolidated financial statements include all assets, liabilities, revenues, and expenses of the LLCs. All material interorganization transactions of the affiliated organization and the LLCs have been eliminated in consolidation. The Foundation, its affiliate, and the LLCs are collectively referred to as the Foundation throughout these consolidated financial statements.

#### ***Operations***

The Foundation acts primarily as a fundraising organization, soliciting, receiving, managing, and disbursing contributions on behalf of the University. Distribution of amounts held in the funds of the Foundation is subject to the approval of the Foundation and the availability of monies. Accordingly, the accompanying consolidated financial statements generally reflect expenditures which have been submitted to and approved by the Foundation as of the financial reporting date.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

#### ***Basis of Presentation***

The Foundation follows the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The ASC is the single source of authoritative guidance for accounting principles generally accepted in the United States of America (U.S. GAAP) for nongovernmental entities. The Foundation's consolidated financial statements have been prepared on the accrual basis of accounting and to ensure the observance of limitations and restrictions placed on the use of available resources, the Foundation maintains its accounts in accordance with the principles and practices of fund accounting. All interfund activities have been eliminated in the accompanying consolidated financial statements.

#### ***Reclassifications***

Certain reclassifications have been made to the 2019 consolidated statements of financial position and footnotes to conform to the classifications used in 2020. These reclassifications had no effect on net assets.

#### ***Concentrations of Credit***

The Foundation has certain concentrations of credit risk with financial institutions in the form of uninsured cash and time deposits. For purposes of evaluating credit risk, the stability of financial institutions conducting business with the Foundation is periodically reviewed and management believes that credit risks related to such balances are minimal.

The Foundation received contributions from two and five donors totaling approximately \$31,132,000 and \$11,827,000 in the years ended June 30, 2020 and 2019, respectively. These contributions represent approximately 31 percent and 12 percent of total contribution revenue in 2020 and 2019, respectively. Net contributions receivable totaling approximately \$69,253,000 and \$59,179,000 are due from ten and nine donors at June 30, 2020 and 2019, respectively. These receivables represent approximately 62 percent and 60 percent of total net contributions receivable at June 30, 2020 and 2019, respectively.

The Foundation has a closely held stock that represents approximately 10 percent of the total investment balance at June 30, 2020 and 2019.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

#### *Liquidity and Availability*

Financial assets available for general expenditures, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following:

	<b>2020</b>	<b>2019</b>
Cash and cash equivalents	\$ 11,202,484	\$ 6,032,477
Short-term investments and unrestricted liquid investments	169,518,984	142,027,175
Interest and other receivables	2,195,693	3,479,038
Notes receivables	875,000	875,000
Unendowed investments	38,528,781	69,576,517
Endowment spending-rate distributions	26,217,124	25,122,280
	<u>\$ 248,538,066</u>	<u>\$ 247,112,487</u>

The Foundation's endowment funds consist of donor-restricted endowments and funds designated as endowments. Income from donor-restricted endowments is restricted for specific purposes, with the exception of the amounts available for general use. Donor-restricted endowment funds are not available for general expenditure.

Consistent with the objectives of the Foundation's investment policy, cash and investments are managed such that funds are available as expenditures, liabilities, and other obligations come due. As part of the Foundation's liquidity management plan, the Foundation invests cash in excess of expected short-term needs in short-term investments.

The Foundation receives management fees on funds held in the investment pool and a gift allocation on gifts received. For the fiscal year ending June 30, 2020, management fees and gift allocations were approximately \$10,079,000 and \$2,549,000, respectively. For the fiscal year ending June 30, 2019, management fees and gift allocations were approximately \$9,851,000 and \$2,244,000, respectively. The management fees and gift allocation provide funds necessary to fulfill the Foundation's general expenditure obligation.

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Net investment returns consists of the following for the years ended June 30:

	<b>2020</b>	<b>2019</b>
Interest and dividends	\$ 13,346,838	\$ 12,267,026
Investment fees	(6,790,688)	(3,975,105)
Net realized gains on investments carried at fair value	40,961,629	28,914,745
Net unrealized gains on investments carried at fair value	31,417,113	5,876,842
Change in fair value of perpetual trusts	(13,308)	(197,161)
Net investment returns	\$ 78,921,584	\$ 42,886,347

### **Contributions, Interest, and Other Receivables**

Unconditional contributions receivable, including amounts due under pledge agreements, are expected to be collected as follows at June 30:

	<b>2020</b>	<b>2019</b>
Contributions receivable in		
Less than one year	\$ 32,462,626	\$ 29,947,227
One year to five years	89,395,999	46,287,634
Over five years	47,223,952	47,148,899
	169,082,577	123,383,760
Less:		
Unamortized discount (2.25% - 7.98%)	47,874,944	14,843,546
Allowance for uncollectible pledges	8,925,847	9,257,939
	\$112,281,786	\$ 99,282,275

The Foundation has raised substantial conditional and unconditional contributions which, at least in part, are for the purpose of qualifying for the Pickens Legacy Scholarship match program. The matching funds are to be provided through the estate of a significant donor and as such are considered conditional; however, the funds raised to be matched by this conditional gift which are the result of cash payments and/or unconditional promises to give have been recognized as contribution revenue net of a discount to present value in the period in which the contribution was made and/or unconditional promise was received.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

Unconditional contributions receivable net of discount and allowance that are with donor restrictions are described in the table below at June 30:

	<u>2020</u>	<u>2019</u>
Intercollegiate athletics	\$ 46,408,729	\$ 52,348,196
General University support	21,421,039	18,801,309
Awards and scholarships	7,975,419	6,148,154
Facilities and equipment	36,034,053	21,287,435
Other	442,546	697,181
	<u>\$112,281,786</u>	<u>\$ 99,282,275</u>

Conditional promises to give are substantially the result of the Foundation being named as the beneficiary in an estate plan or a valid will. No amounts have been recognized in the consolidated financial statements for conditional promises to give because the conditions on which they depend have not been substantially met. The Foundation does not currently have sufficient information to estimate the amounts of conditional promises to give. Interest and other receivables consist of the following at June 30:

	<u>2020</u>	<u>2019</u>
Interest and other receivables		
Receivable from OSU	\$ 1,745,517	\$ 1,473,749
Other receivables	450,176	2,005,289
Notes receivables	5,904,051	7,724,569
	<u>\$ 8,099,744</u>	<u>\$ 11,203,607</u>

Interest and other receivables are expected to be collected within one year.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

#### ***Endowment Disclosures***

The Foundation's endowment consists of approximately 3,600 and 3,500 funds at June 30, 2020 and 2019, respectively, established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the trustees to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

#### ***Interpretation of Relevant Law***

The trustees of the Foundation have chosen to preserve the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are expended by the Foundation in a manner consistent with the standard of prudence prescribed by OK UPMIFA. In accordance with OK UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policies of the Foundation

In addition to permanently restricted endowment funds, the Foundation also has interests in perpetual trusts and charitable remainder trusts which are managed by third parties, charitable trusts which are managed by the Foundation and permanently restricted contributions receivable. These assets are not a part of the Foundation's endowment and therefore are not included in the endowment disclosures.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

#### *Fair Value Measurements*

The Foundation's Investment Committee, appointed by the Board of Trustees, is responsible for the overall management of the Foundation's investments, including the hiring and termination of investment managers, investment consultant(s), custodian banks, and securities lending agents. The Foundation's Investment Office is responsible for sourcing, evaluating, and selecting investments for recommendation to the Foundation's Investment Committee. The Foundation's Investment Office is also responsible for the day-to-day operations involving due diligence and other testing procedures in regard to reviewing the reasonableness of fair value for all investments, which includes evaluating the accuracy and adequacy of information provided by custodians, brokers, and managers. The valuation process for investments is the responsibility of the Foundation's Investment Office and all other fair value measurements are the responsibility of the Foundation's accounting department. Fair value measurements for beneficial interests in trusts and funds held on behalf of OSU, Cowboy Athletics, and OSU Alumni Association are prepared by the Foundation's accounting department and approved by the Board of Trustees during its review and approval of the Foundation's periodic internal financial statements.

The methods and assumptions used to estimate the fair value of assets and liabilities in the consolidated financial statements, including a description of the methodologies used for the classifications within the fair value hierarchy, are as follows:

#### *Cash and Cash Equivalents*

The asset's carrying amount approximates fair value due to its short maturity.

#### *Investments*

All of the Foundation's marketable securities are valued by nationally recognized third-party pricing services, except for certain commodities which are valued by the fund/account manager. The Foundation gives highest priority to quoted prices in active markets for identical assets accessed at the measurement date. An active market for the asset is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis and the Foundation classifies all such assets as Level 1. The Foundation gives a Level 2 priority to valuation prices where the valuation process involves inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly, using the market approach. Level 2 inputs under the market approach include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets where there is not sufficient activity, and/or where price quotations vary substantially either over time or among market makers, or in which little information is released publicly. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### **Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)**

Nonmarketable securities, except for closely held stock, are carried at fair value which is based on the NAV as provided by the fund manager and/or adjusted by the Foundation. The Foundation uses management agreements, analyst notes, audited financial statements, and underlying investment holdings to evaluate the fund manager's valuation methodology, *i.e.*, in determining whether the fund manager follows ASC 820 and considers various other factors including contributions and withdrawals to the fund and monitoring unaudited interim reporting to determine if any adjustment to the NAV is necessary. Closely held stock is carried at fair value which is based on independent appraisal or Foundation management. Closely held stock is categorized as Level 3 in the fair value hierarchy.

#### ***Contributions Receivable***

The asset is carried at cost net of a discount to present value using a rate which is commensurate with the risks involved on the gift date and an allowance for uncollectible accounts at the financial reporting date. Risks associated with individual gifts are assessed annually through the Foundation's review of the status of each gift. Fair value is the price a market participant would pay to acquire the right to receive the cash flows inherent in the promise to pay. Due to inclusion of a discount to net present value and allowance for uncollectible accounts, the carrying value approximates fair value.

#### ***Interest and Other Receivables***

The asset is carried at cost, which approximates fair value due to the short maturity of such amounts.

#### ***Other Property Investments***

The asset's carrying amount is based on the fair value of the assets at the time of donation or purchase, *i.e.*, cost basis, and reduced for impairments to their net realizable value based on facts and circumstances at the time of the determination. Property investments are not held for long-term investment purposes; therefore, management believes the carrying amount approximates fair value.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

#### ***Beneficial Interests in Trusts***

The beneficial interest is carried at fair value, which is based on the present value of the expected future cash inflows from the trusts. The fair value of the underlying trust assets is based on quoted market prices when available or the best estimate of fair value as determined by the third-party trustee. The Foundation's valuation technique considers the fair value of the assets held in the trust and applies a discount rate to convert such amounts to a single present value amount when appropriate. The discount rate used by the Foundation reflects current market conditions including the inherent risk in the underlying assets and the risk of nonperformance by the trustee. Due to the significant unobservable inputs required to estimate the expected future cash receipts from the trust agreements under the income approach, the Foundation's beneficial interest is classified as Level 3 in the hierarchy.

#### ***Other Assets***

The primary other asset is cash surrender values on life insurance policies for which the Foundation is the beneficiary, and as such, the carrying value approximates fair value.

#### ***OSU Support Payable and Accounts Payable and Accrued Liabilities***

The carrying amount of the liabilities approximates fair value due to the short maturity of such amounts.

#### ***Funds Held on Behalf of OSU, OSU Alumni Association, and Foundation for the McKnight Center for the Performing Arts***

The liabilities are carried at fair value as determined using the income approach (expected future cash outflows). Fair value is based on the fair value of the cash and investment assets held by the Foundation for the benefit of OSU, OSU Alumni Association, and Foundation for the McKnight Center for the Performing Arts. The specific assets held have been classified within the hierarchy for investments (as discussed above) or are cash and cash equivalents. The related and associated liability is classified as Level 3 in the hierarchy as there is no market for a similar liability and certain principal inputs, *i.e.*, fair value inputs of nonmarketable assets in the portfolio and management's allocation for shares in the pool, are unobservable and significant to the overall fair value measurement.

#### ***Obligations Under Split-Interest Agreements***

The liabilities' fair value is determined by discounting the future cash flows at rates that could currently be negotiated by the Foundation for borrowings of similar amounts. The carrying value approximates the liabilities' fair value.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

**Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)**

***Unearned Revenue, Line of Credit, and Note Payable***

The liabilities are carried at cost, which approximates fair value due to the short maturity of those amounts.

Assets and liabilities measured at fair value on a recurring basis are classified within the fair value hierarchy at June 30, 2020, as follows:

	<b>Total</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
<b>Assets</b>				
Marketable securities				
Fixed income				
Cash and short-term funds	\$ 65,777,891	\$ 65,777,891	\$ -	\$ -

The summary of changes in fair value of Level 3 assets has been prepared to reflect the activity in the same categories as those provided in the consolidated statements of activities, except that none of the activity related to the funds held on behalf of OSU, OSU Alumni Association, or Foundation for the McKnight Center for the Performing Arts is reported in the consolidated statements of activities. All transactions in custodial accounts increase and/or decrease assets and liabilities simultaneously and do not impact the consolidated statements of activities and/or net assets.

**Oklahoma State University**  
**Notes to Financial Statements**  
**June 30, 2020 and 2019**  
**(In Thousands)**

**Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)**

The Foundation’s Level 3 gains and losses included in the change in net assets are summarized as follows:

	<u>2020</u>	<u>2019</u>
Total gains (losses) for the period included in change in net assets	<u>\$ 19,574,267</u>	<u>\$ 5,199,614</u>
Change in unrealized gains (losses) for the period included in change in net assets for assets held at the end of the reporting period	<u>\$ 19,574,267</u>	<u>\$ 5,199,614</u>

In the ordinary course of business, the Foundation is subject to risk from adverse fluctuations in foreign exchange, interest rates, and commodity prices. The Foundation manages these risks through use of derivative financial instruments, primarily future and forward contracts. These contracts are short-term commitments (approximately eight weeks) to buy or sell at a future date a commodity or currency at a contracted price and may be settled in cash or through delivery. Counterparties to these contracts are major financial institutions. The Foundation is exposed to credit loss in the event of nonperformance by these counterparties. There were no derivative assets at June 30, 2020. At June 30, 2019, the fair value of the derivative liability is \$682,967. The net value of \$682,967 is included in investments in the statement of financial position (global equity futures in the investment disclosures) and realized and unrealized gains (losses) are recorded as net investment returns in the consolidated statement of activities.

### Note 20: Discretely Presented Component Unit – Oklahoma State University Foundation (Not in Thousands) (Continued)

*Equities – hedged equity – event-driven funds* – A fund that invests across the capital structure in a wide range of global securities, with a focus on near- to medium-term catalyst.

*Equities – long-only – domestic equities fund* – A fund that invests in common and preferred stock from issuers located primarily in the United States.

*Equities – long-only – emerging markets funds* – Funds which invest in common and preferred stock from issuers in emerging market countries.

*Equities – long-only – international funds* – Funds that invest in common and preferred stock from issuers in emerging market countries.

*Equities – private equity funds* – Funds structured as limited partnerships and trusts, which invest in a variety of areas including foreign investments, growth equities, performing, and distressed debt, emerging markets, diversified fund of funds, and mid-market growth companies. The private equity category is mature, with existing commitments in their harvest periods. The Foundation anticipates receiving half of the distributions over the next three years and then remaining distributions will decrease until fully distributed by approximately 2027. The Foundation intends to utilize these distributions to acquire additional private equity investments.

*Fixed income – global fixed income fund* – Fund which seeks to generate absolute returns regardless of market conditions through strategic investment in countries, currencies, sectors, and securities.

*Global equity futures* – Funds which invest long and short in a wide range of equities.

*Real assets – private funds* – Funds structured as limited partnerships to invest in private real assets. This category is mature, with existing commitments in their harvest periods. The Foundation anticipates receiving half of the distributions over the next three years and then remaining distributions will decrease until fully distributed by approximately 2027. The Foundation intends to utilize these distributions to acquire additional private equity investments.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### **Note 21: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands)**

#### ***Nature of Operations and Reporting Entity***

The National Center for Addiction Studies and Treatment Foundation (the “Foundation”), is a non-profit 501(c)(3) Oklahoma corporation established in 2019. The Foundation is a component unit of Oklahoma State University. The mission of the Foundation is “to improve the lives of individuals in Oklahoma and across the nation that are affected by pain and substance abuse disorders through exceptional programs in research, education, prevention, treatment, and advocacy.”

The Foundation was created as a result of a consent settlement agreement and decree between the State of Oklahoma and Purdue Pharma, Inc. (Purdue) in March 2019. The settlement was reached as a result of litigation filed by the Attorney General of Oklahoma on behalf of the state against Purdue alleging certain actions taken by Purdue that led to the opioid crisis within the state. The settlement agreement provided for a \$102,500,000 payment to be made to the Foundation by Purdue. In addition, the owners of Purdue agreed within the settlement agreement to donate \$75,000,000 to the Foundation.

#### ***Basis of Accounting and Presentation***

The accompanying financial statements of the Foundation have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place. Operating revenues and expenses include exchange transactions. Investment income is included in nonoperating revenues (expenses). When an expense is incurred that can be paid using either restricted or unrestricted resources, the Foundation’s policy is to use prudent decision processes to determine which resources will be applied based on availability of funding, donor intent, and returns available from idle funds.

#### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### ***Cash Equivalents***

The Foundation considers all liquid investments with original maturities of three months or less to be cash equivalents. At December 31, 2019, cash equivalents consisted primarily of money market sweep accounts.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 21: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

#### ***Investments and Investment Income***

Investments are carried at fair value. Fair value is determined using quoted market prices. Investment income includes dividend and interest income.

#### ***Net Position***

Net position of the Foundation is classified in two components on the accompanying balance sheet.

- Restricted expendable net position is made up of noncapital assets that must be used for a particular purpose, as specified by creditors, grantors, or donors external to the Foundation. At December 31, 2019, restricted expendable net position was available for support of the National Center for Addiction Studies and Treatment at Oklahoma State University's Center for Health Sciences.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

#### ***Classification of Revenues***

The Foundation has classified its revenues as either operating or nonoperating revenues according to the following criteria.

Operating revenues include activities that have the characteristics of exchange transactions or nonexchange transactions that constitute the Foundation's principal ongoing operations, such as:

1. Gifts and contributions
2. Settlement income

Nonoperating revenues include activities that have the characteristics of nonexchange transactions, but do not constitute the Foundation's principal ongoing operations, such as:

1. Other revenue sources that are defined as nonoperating revenues by Governmental Accounting Standards Board (GASB) Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Fund Accounting*
2. GASB Statement No. 34, such as investment income

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 21: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

#### ***Income Taxes***

The Foundation is organized as an Oklahoma nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in 501(c)(3). Contributions to the Foundation qualify for the charitable contribution deduction under Section 170(b)(1)(A). The Foundation is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purposes. The Foundation has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS for the year ended December 31, 2019.

#### ***Deposits***

Custodial credit risk is the risk that in the event of a bank failure, the Foundation's deposits may not be returned to it. The Foundation's deposit policy for custodial credit risk requires compliance with the provisions of state law.

By Oklahoma statute, the State Treasurer is required to ensure that all state funds are either insured by the Federal Deposit Insurance Corporation (FDIC), collateralized by securities held by the cognizant Federal Reserve Bank in the Foundation's name, or invested in U.S. government obligations. At December 31, 2019, none of the Foundation's bank balances of \$25,000 were exposed to custodial credit risk.

#### ***Investments***

The Foundation may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds and equity securities.

At December 31, 2019, the Foundation had deposits in a money market investment account of \$103,618,570, which are included in cash and cash equivalents on the accompanying balance sheet.

#### ***Interest Rate Risk***

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. Investments that are held for longer periods of time are subject to increased risk of adverse interest changes. Neither the Foundation nor state statutes limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The money market mutual funds noted above are an investment with a maturity of less than one year because the average maturity of the funds is less than one year.

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 21: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

#### ***Credit Risk***

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. It is the Foundation's policy to limit its investments in corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations. At December 31, 2019, the Foundation's investments in money market mutual funds were rated AAA by Standard & Poor's and Aaa by Moody's Investors Service.

#### ***Custodial Credit Risk***

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the Foundation will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investments held by counterparty are held in the Foundation's name.

#### ***Concentration of Credit Risk***

The Foundation places no limit on the amount that may be invested in any one issuer. At December 31, 2019, no investments in any one organization (other than those issued or sponsored by the U.S. government) represented 5 percent of total investments.

#### ***Summary of Carrying Values***

The carrying values of deposits and investments shown above are included in the accompanying balance sheet as follows:

Carrying value	
Deposits	\$ 25,000
Investments	<u>103,618,570</u>
	<u>\$103,643,570</u>

# Oklahoma State University

## Notes to Financial Statements

June 30, 2020 and 2019

(In Thousands)

### Note 21: Discretely Presented Component Unit – National Center for Addiction Studies and Treatment (Not in Thousands) (Continued)

#### ***Disclosures About Fair Value of Assets***

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets.
  
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
  
- Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets.

#### ***Recurring Measurements***

The money market mutual funds of \$103,618,570 are recognized in the accompanying financial statements measured at fair value on a recurring basis and are considered Level 1 investments at December 31, 2019.

#### ***Investments***

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Foundation had no Level 2 or Level 3 investments at December 31, 2019.

**Notes to Schedule**

***Benefit Changes***

There were no changes to benefit terms for OTRS for the years ended June 30, 2020, 2019, or 2018.

***Changes of Assumptions***

Actuarial assumptions used in the June 30, 2017, valuation were changed as follows:

Salary increases were composed of 3.25 percent inflation, including 2.50 percent, plus a service-related component ranging from 0.00 percent to 8.00 percent based on years of service.

Actuarial assumptions used in the June 30, 2016, valuation were changed as follows:

Inflation was increased to 2.50 percent

Investment Rate of Return was decreased to 7.50 percent

There were no changes to assumptions in the valuation report for the years ended June 30, 2015, June 30, 2018, or June 30, 2019.

# Oklahoma State University

## Notes to Summary Schedule of Expenditures of Federal Awards

### Year Ended June 30, 2020

#### **Notes to Schedule**

##### **1. Basis of Presentation**

The financial statements include the accounts of all agencies of Oklahoma State University (the “General University”) and the accounts of the Oklahoma State University Research Foundation (OSURF), collectively referred to as the “University.” The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes all Federal awards and other Federal assistance of the University for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the University, it is not intended and does not present the financial position, changes in net position, or cash flows of the University.

For purposes of the Schedule, Federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the Federal government, Federal appropriations to land grant universities, and all subawards to the University by nonfederal organizations pursuant to Federal grants, contracts, and similar agreements. As described in the Uniform Guidance document, the federal awards have been classified into two categories; Type A programs and Type B programs. Type A programs are defined by Uniform Guidance as Federal programs with Federal awards expended during the audit period exceeding the larger of \$3,000,000 or 0.3 percent of total Federal awards expended, and Type B programs are all other Federal programs. For the year ended June 30, 2020, the dollar threshold used to distinguish between Type A Federal programs and Type B Federal programs was \$3,000,000.

Type A programs include the following:

##### **A. Research and Development**

Includes Federal appropriations to the Agricultural Experiment Station and awards for research and development work under grants and contracts with agencies and divisions of the Federal government.

##### **B. Student Financial Assistance**

Includes certain awards to provide financial assistance to students, primarily under the Federal Pell Grant, Federal Work-Study, and Federal Supplemental Educational Opportunity Grant programs of the Department of Education. The University receives awards to make loans to eligible students under certain Federal student loan programs.

**Oklahoma State University**  
**Notes to Summary Schedule of Expenditures of Federal Awards**  
**Year Ended June 30, 2020**

C. Other Type A Programs

Includes Department of Agriculture, Department of Labor, National Aeronautics and Space Administration, Department of Education, and Department of Health and Human Services.

Catalog of Federal Assistance (CFDA):

The University has obtained CFDA numbers to ensure that all Federal programs have been identified in the Schedule. CFDA numbers for applicable programs have been appropriately listed by those programs.

Federal Pass-through Funds:

The University passes through certain Funds to subgrantee organizations. Expenditures incurred by the subgrantees and reimbursed by the University are included in the Schedule.

The University is also the subrecipient of Federal funds that are reported as expenditures and included in the Schedule. The Detailed Schedule of Federal Awards denotes funding sources for pass-through funds. Federal awards other than those indicated as pass-through are denoted as Federal direct funds.

**2. Summary of Significant Accounting Policies**

For purposes of the Schedule, expenditures for Federal award programs are recognized on the accrual basis of accounting.

Such expenditures are recognized following the cost principles contained in either A-21, Cost Principles for Educational Institutions or the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Oklahoma State University has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance. Moreover, expenditures include a portion of costs associated with general University activities, which are allocated to federal awards under negotiated formulas, referred to as Facilities and Administrative Costs (F&A). The University uses an F&A rate that has been negotiated with the Office of Naval Research (ONR) in accordance with 2 CFR Part 200. Restricted grants and contracts and other agreements are recognized when funds are expended in accordance with grant provisions.

**Oklahoma State University**  
**Notes to Summary Schedule of Expenditures of Federal Awards**  
**Year Ended June 30, 2020**

**3. Federal Student Loan Programs**

A. Federal Perkins Loan Program and Health Professions Student Loan Program

The Federal Perkins Loan Program (Perkins) and the Health Professions Student Loan Program (HPSL) are administered directly by the University, and balances and transactions relating to these programs are included in the University's general purpose financial statements.

The balances of loans outstanding at June 30, 2020, under Federal student loan programs are summarized as follows:

	<u>Perkins</u>	<u>HPSL</u>
CFDA	84.038	93.342
Student loans receivable at June 30, 2020		
Stillwater Campus	\$ 10,312,794	\$ 1,132,903
Center for Health Sciences	-	1,985

B. Federal Direct Student Loans

Under the Federal Direct Student Loans Program, the Department of Education makes loans to enable a student or parent to pay the costs of the student's attendance at a postsecondary school. This Program enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly through the University rather than through private lenders. The Stillwater campus began participation in the Direct Loan Program July 1, 1995. As a university qualified to originate loans, the University is responsible for handling the complete loan process, including funds management. The University is not responsible for the collection of these loans.

**Oklahoma State University**  
**Notes to Summary Schedule of Expenditures of Federal Awards**  
**Year Ended June 30, 2020**

**5. Detailed Schedule of Expenditures of Federal Awards**

The accompanying detailed schedules of expenditures of Federal awards for the University at Appendix A are an integral part of the Schedule of Expenditures of Federal Awards.

**Report on Internal Control Over  
Financial Reporting and on Compliance and Other Matters Based on an  
Audit of Financial Statements Performed in Accordance with  
Government Auditing Standards**

**Independent Auditor's Report**

Board of Regents for the  
Oklahoma Agricultural and Mechanical Colleges  
Oklahoma State University  
Oklahoma City, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of Oklahoma State University (“the University”), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the University’s basic financial statements, and have issued our report thereon dated October 30, 2020. Our report includes a reference to other auditors who audited the financial statements of Oklahoma State University Foundation (OSUF), as described in our report on the University’s financial statements. The financial statements, of Oklahoma State University Foundation and National Center for Addiction Studies and Treatment Foundation (NCAST), the aggregate discretely presented component units were not audited in accordance with *Government Auditing Standards* and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with OSUF or NCAST.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the University’s internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University’s internal control. Accordingly, we do not express an opinion on the effectiveness of the University’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Board of Regents for the  
Oklahoma Agricultural and Mechanical Colleges  
Oklahoma State University

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Oklahoma City, Oklahoma

#### Report on Compliance for Each Major Federal Program

We have audited Oklahoma State University's (the "University") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2020. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Board of Regents for the  
Oklahoma Agricultural and Mechanical Colleges  
Oklahoma State University

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance that are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2020-001. Our opinion on each major federal program is not modified with respect to this matter.

The University's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the response.

### **Report on Internal Control Over Compliance**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2020-001, that we consider to be a significant deficiency.

Board of Regents for the  
Oklahoma Agricultural and Mechanical Colleges  
Oklahoma State University

The University's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Oklahoma State University**  
**Schedule of Findings and Questioned Costs**  
**Year Ended June 30, 2020**

7. The University's major programs were:

<b>Cluster/Program</b>	<b>CFDA Number</b>
<b>Federal Student Assistance Cluster</b>	
Federal Supplemental Educational Opportunity Grants	84.007
Federal Work Study Program	84.033
Federal Perkins Loan Program	84.038
Federal Pell Grant Program	84.063
Federal Direct Student Loans	84.268
Teacher Education Assistance for College and Higher Education Grants	84.379
Health Professions Student Loans	93.342
Higher Education Emergency Relief Fund (HEERF)	84.425E and F
Small Rural Hospital Improvement Grant Program	93.301
Research and Development Cluster	*
Department of Agriculture – Cooperative Extension	10.500

\* See detailed Schedule of Expenditures of Federal Awards for identification of CFDA numbers applicable to the major programs.

8. The threshold used to distinguish between Type A and Type B programs was \$3,000,000.

9. The University qualified as a low-risk auditee?  Yes  No

Number**

**Summary of Finding**

---

No matters are reportable.

**Oklahoma State University**  
**Schedule of Findings and Questioned Costs**  
**Year Ended June 30, 2020**

**Findings Required to be Reported by the Uniform Guidance**

Reference Number	Summary of Finding
2020-001	<p style="text-align: center;">CFDA Number 93.301 Small Rural Hospital Improvement Grant Program; U.S. Department of Health and Human Services, Health Resources and Services Administration; Year 2019-2020</p> <p>Criteria or Specific Requirement – Subrecipient Monitoring</p> <p>Condition – The University receives Small Rural Hospital Improvement Grant funding as a pass through entity, to provide funding for hospitals that are deemed subrecipients. The University's system of internal control did not identify this grant as having subawards, thus they did not initiate their standard subrecipient monitoring procedures. As a result, certain information required to be provided to the subrecipients was not included in the subaward documents and monitoring did not include determining whether the subrecipients complied with the single audit requirements.</p> <p>Questioned costs – None</p> <p>Context – Based on the grant budget, the University believed the disbursements to be contractual in nature, and not a subaward. Our testing demonstrated that a portion of the required subrecipient monitoring procedures were performed by University personnel.</p> <p>Effect – The University did not perform certain procedures to address all subrecipient monitoring duties including inquiry as to whether the subrecipients were suspended or debarred; inquiry as to whether the subrecipients received an audit to allow the University to know whether follow up action was required related to findings, and the CFDA number was not provided to the subrecipients in their communications.</p> <p>Cause – Based on the grant budget, the University believed the disbursements to be contractual in nature, and not a subaward. This resulted in the University not initiating their protocol for subrecipient monitoring.</p> <p>Recommendation – The University should strengthen the internal controls surrounding identification of subawards.</p> <p>Views of Responsible Officials and Planned Corrective Actions – Management believes the original SHIP grant was set up correctly as a professional contract. The Agency awarded the funds as contractual services which precluded the need for any sub recipient monitoring or additional measures. While the Agency has provided conflicting answers to this issue, they have stated that issuing the COVID-SHIP funds as professional services is acceptable and that FFATA reporting was not applicable to the original SHIP grant since the program was authorized prior to the FFATA reporting requirement. Management will continue to work with the Agency to determine if any changes need to be made to the SHIP and/or COVID-SHIP grants going forward.</p>
